PERTINENT INFORMATION:

Signal has initiated a full-scale waterflood operation. Production performance clearly indicates that the program has been successful, resulting in an economic advantage to the State. In order to maintain a coordinated and uninterrupted secondary recovery development program, Signal has submitted an application to redrill "State 392" J-152 as a producing well.

The proposed redrill is part of the plan for secondary recovery operations approved by the Commission on November 6, 1963 (Minute Item 21, page 9362).

The proposed completion interval in this well will provide the best development spacing for optimum flood response. The surface location of this well is on the uplands.

The proposed redrilling and completion program has been reviewed by the Division and determined to be in accordance with good engineering practices and the rules and regulations of the Commission.
