RESCISSION OF AUTHORIZATION
TO ISSUE A
GENERAL PERMIT - PUBLIC AGENCY USE

BACKGROUND: At its meeting on September 29, 1981, (Minute Item No. 7), the State Lands Commission approved the issuance of a 49-year General Permit - Public Agency Use to Fresno Metropolitan Flood Control District for the construction, reconstruction and maintenance of an existing storm drain and outfall facility on a 0.057-acre parcel of submerged lands located in the San Joaquin River near Fresno, Fresno County.

CURRENT SITUATION: The issuance of the subject permit has been held in abeyance because staff has required additional time to reach a determination on the District's obligation to the Commission under P.R.C. 6327. Staff finds that the District has received a permit from the United States Army Corps of Engineers. Because this action completes the qualifying provision set forth in the referenced code section, a permit is not required from the Commission for this project.

This activity is exempt from CEQA because it is not a project as defined within the State EIR Guidelines.

Authority: P.R.C. 21065, 14 Cal. Adm. Code 15037 and 15060.
