APPROVE SUBSIDENCE COSTS FOR
VERTICAL AND HORIZONTAL MEASUREMENTS AND STUDIES
CITY OF LONG BEACH, 1986-87 FISCAL YEAR

SUBSIDENCE PROJECT:

Subsidence vertical and horizontal measurements and studies in the City of Long Beach Harbor District between July 1, 1986 and June 30, 1987.

PROPOSED WORK: The City of Long Beach Harbor Department conducts ground elevation and horizontal distance measurement surveys and studies twice each year throughout the Harbor District for the purpose of monitoring changes that may be attributable to subsidence.

The major portion of the work effort and cost is in the vertical measurement (elevation) surveys and studies.

COST: The City estimates the cost of the work to be:

Vertical Measurements and Studies	$210,000
Horizontal Measurements and Studies	10,000
Total	$220,000

The estimated cost for vertical measurements and studies has decreased by $40,000 over the current year's estimate of $250,000. The decrease reflects anticipated lower Harbor Department staff costs as a result of implementing state of the art field and office survey procedures and equipment.

(PAGES 147-147.2 ADDED 06/17/86)

The proposed expenditures are authorized by Chapter 138/'64 1st E.S., Section 1(e) subject to prior approval by the State Lands Commission.
