RATIFY AUTHORITY TO AWARD CONTRACT TO THE LOWEST BIDDER
FOR THE REMOVAL OF HAZARDOUS STRUCTURES
ON TIDE AND SUBMERGED LANDS

PARTY: State Lands Commission
1807 - 13th Street
Sacramento, California 95814

BACKGROUND:
At its September 14, 1988 meeting, the Commission delegated the authority necessary to obtain all permits from other governmental agencies and to solicit bids for the removal hazards associated with prior oil- and gas-related activities in state waters offshore Santa Barbara County. The Commission provided $563,000 funding in the 1988-89 Fiscal Year to remove priority hazards identified and prioritized in the Commission's Coastal Hazards Inventory Program which was submitted to the Legislature in June 1986.

The solicitation of bids has occurred, bids have been received, and all necessary permits have been obtained.

REQUEST FOR RATIFICATION:
The period for the removal of the hazardous structures is restricted to a period of February through May by the Coastal Commission permit. The purpose of this restriction is to take advantage of the low sand levels and to avoid the peak recreational period on the beaches within Santa Barbara County. The removal process needs to commence as soon as possible to take advantage of the low tides and the limited time available to complete the hazard removal.
