BACKGROUND

At its meeting of January 8, 1992, Calendar Item C03, the Commission authorized an amendment to Pacific Gas and Electric's (PG&E) master lease PRC 5438, Addendum No. 12. The amendment authorized PG&E to add two parcels of sovereign land to the master lease for the installation, operation, and maintenance of a 42-inch-diameter natural gas pipeline. The lands are located in the bed of the Sacramento River, Tehama County, and the bed of the Fall River in Shasta County.

The exhibits submitted with Calendar Item C03 for the Sacramento River crossing, exhibits A-97 and B-97, were submitted with the incorrect description and location map.

Commission staff has revised the exhibits, as attached hereto, and incorporated them within Addendum 12 of master lease PRC 5438. The revised exhibits describe and depict the correct location where the authorized improvements, when installed by PG&E, will be located on the Sacramento River, Tehama County.
