

42. (AGREEMENT FOR EASEMENT NO. 415, RIO VISTA, ALLOTMENT REVISION 56, STANDARD OIL COMPANY OF CALIFORNIA.) The Commission was informed that the Standard Oil Company of California, lessee under Agreement for Easement 415, Rio Vista, has submitted the data relative to the proposed 56th Revision of the estimated productive limits of the pools within the Rio Vista Gas Field. This proposed revision is based upon the results of a general review of production data for all of the recognized pools, the decrease in productivity in certain edge wells having demonstrated that retraction of the productive limits of the West Emigh Pool is warranted. The revisions have been reviewed by the Staff and found to be a reasonable interpretation of the location of the productive limits of the affected pool. The change in State participation in allocations of production from the Rio Vista Field is shown in the accompanying tabulation. Such changes will result in a minor decrease in the monthly royalty accruing from the Rio Vista Field production.
