

MINUTE ITEM

27. PROPOSED PURCHASE OF VACANT STATE SCHOOL LAND, SAN BERNARDINO COUNTY FLOOD CONTROL DISTRICT, S.W.O.s 7590, AND 7511.

In presenting Calendar Item No. 43 attached, the Executive Officer called attention to the fact that subsequent to its preparation a request had been received from Max Schlosser for withdrawal of his application for 131.84 acres; therefore, in the recommendation the reference to the rejection "from the purchase application of Max Schlosser" should be disregarded.

The Executive Officer explained that the San Bernardino County Flood Control District had concluded that the only practical approach to obtaining the lands for use was to purchase them rather than to apply for a lease. No less than the full market value may be accepted by the Commission, but it is not necessary to require competitive bidding. The District has not yet filed an application for the purchase of the lands, the recommendation under consideration being for the purpose of clearing the record for such action.

UPON MOTION DULY MADE AND UNANIMOUSLY CARRIED, THE FOLLOWING RESOLUTION WAS ADOPTED:

THAT PORTION OF THE SOUTHEAST QUARTER OF SECTION 36, TOWNSHIP 1 NORTH, RANGE 8 EAST, SAN BERNARDINO MERIDIAN, IN THE COUNTY OF SAN BERNARDINO, STATE OF CALIFORNIA, DESCRIBED AS FOLLOWS:

## PROPOSED PURCHASE OF VACANT STATE SCHOOL LAND, SAN BERNARDINO COUNTY FLOOD CONTROL DISTRICT, S.W.O.s 7590, AND 7511.

On January 11, 1960, an application to purchase Lots 1, 2, 3, 4, 5, 6, 7 and 8 (or  $S\frac{1}{2}$ ) of Section 36, T. 1 N., R. 8 E., S.B.M., containing 337.77 acres in San Bernardino County, was received from Russell W. Bledsoe of Inglewood, California. The applicant made an offer of \$50 per acre, or a total of \$16,888.50, the minimum value established by a prior appraisal.

Prior to the filing of the above-mentioned purchase applications, there had been correspondence with the San Bernardino County Flood Control District of San Bernardino, California, relating to use of a portion of the land containing approximately 131.84 acres situated within the  $SE\frac{1}{4}$  of Section 36, T. 1 N., R. 8 E., S.B.M. As a result, an application was filed on July 17, 1958, by the Flood Control District to lease this portion for flood control purposes and protection of the town of Twentynine Palms.

During pendency of this application, a question arose as to the rental to be paid to the State by the District. The District contended that under the statutes governing its operation it was entitled to the use of these lands without charge for flood control purposes. The question was referred to the office of the Attorney General, and resulted in an informal opinion dated April 29, 1959. In effect the opinion states that, notwithstanding the statutes governing the Flood Control District's operation, the District is required to pay to the State a rental consideration for use of State school lands.

The necessity of paying the State rental under a leasehold resulted in a request from the District to purchase the land outright rather than to lease it on a long-term basis. Accordingly, a meeting was held between the Commission's staff and representatives of the District on March 4, 1960, during which the problems of the District were fully outlined. The staff was advised that the Flood Control District, as a public agency, felt that it should be permitted to purchase the land without entering into competitive bidding.

Subsequent advice from the District indicates that a substantial portion of the  $SE\frac{1}{4}$  of Section 36, T. 1 N., R. 8 E., S.B.M., lies in active wash areas at the mouth of 49 Palms Canyon and is subject to frequent heavy thunderstorm flood discharges. The District owns the active wash adjoining the State land to the north and is acquiring channel rights-of-way downstream therefrom, all planned to become a part of the "Twentynine Palms Flood Channel" system to serve the area by protecting it from flood hazards. The State land within the  $SE\frac{1}{4}$  of said Section 36 therefore forms a necessary and vital link between the District's present rights-of-way and the canyon mouth, and is required for the ultimate project as a floodway, debris-deposition and water-conservation area. Additionally, the District points out that this parcel is considered subject to serious flood hazards, and that occupation for subdivision and habitation purposes could not be recommended without flood protection measures.

CALENDAR ITEM 43. (CONTD.)

Based upon an independent appraisal which they obtained, a written offer was made by the District to purchase the 131.84 acres in the southeast quarter of said Section 36 for the sum of \$4,871. An appraisal to determine the value of the land under the pending purchase application has not yet been completed by the staff.

IT IS RECOMMENDED THAT THAT PORTION OF THE SOUTHEAST QUARTER OF SECTION 36, TOWNSHIP 1 NORTH, RANGE 8 EAST, SAN BERNARDINO MERIDIAN, IN THE COUNTY OF SAN BERNARDINO, STATE OF CALIFORNIA, DESCRIBED AS FOLLOWS:
