CALENDAR ITEM

33.

PROPOSED OIL AND GAS LEASE, SANTA BARBARA - W.O. 4330 (PARCEL 7).

Pursuant to the sequential bidding procedure approved by the State Lands Commission on November 15, 1960, for oil and gas lease offers of tide and submerged lands, it has been determined by the staff that the offshore area designated as W.O. 4330 (Parcel 7), a portion of which includes land lying east of Gaviota, should be offered for lease.

By agreement with the County of Santa Barbara, oil and gas lease forms currently in use for the tidelands area east of Gaviota contain the following condition:

"No permanent filled lands, platforms, or other fixed or floating structures for well sites or other operations for oil and gas development from the area leased hereunder shall be constructed, used, maintained or operated at any location less than one statute mile seaward of the ordinary high water mark . . ."

To assure complete mutual understanding as to the bases for employing ocean-floor installations closer than one mile from shore in oil and gas leases to be offered by the State Lands Commission in the tidelands area between Gaviota and Elwood, this Division explained to the Santa Barbara County officials the merits and techniques of ocean-floor completions, that it is desirable to employ ocean-floor completions wherever feasible, and that the previously quoted conditions of the current oil and gas lease form permits such operations.

IT IS RECOMMENDED THAT THE COMMISSION AUTHORIZE THE EXECUTIVE OFFICER TO OFFER THE HEREINAFTER DESCRIBED PARCEL OF TIDE AND SUBMERGED LANDS IN SANTA BARBARA COUNTY FOR OIL AND GAS LEASE, PURSUANT TO DIVISION 6 OF THE PUBLIC RESOURCES CODE.

THE BID-LEASE FORM TO BE UTILIZED FOR THE PARCEL SHALL BE THE FORM APPROVED AND ADOPTED BY THE COMMISSION ON NOVEMBER 15, 1960, AND SHALL CONTAIN THE FOLLOWING MODIFICATION TO SECTION 8 OF EXHIBIT "A":

8. No permanent filled lands, platforms, or other fixed or floating structures for well sites or other operations for oil and gas development from the area leased hereunder shall be constructed, used, maintained or operated at any location less than one statute mile seaward of the ordinary high water mark of the ~~Parcel 7~~ Santa Barbara Channel. Provided, however, that this section shall not apply to drilling and completion of a submerged ocean floor oil or gas well; and provided further that this section shall not apply to filled lands, platforms or fixed or floating structures in, on or over tide and submerged lands constructed prior to the date of this lease with respect to which the State or other owner thereof has consented to such use.
