The Chairman announced that the Commission was very pleased with the bids that had been received for the Long Beach Unit, which averaged 96.25%, and would meet the following week on Tuesday, March 2, 1965, hopefully to confirm the awarding of the bids. In the meantime, the Commission expected to receive from its consultants, DeGolyer & MacNaughton, a recommendation as to the acceptability of the bids, and later to receive specifications as to the size and qualifications of the staff needed for this operation.
