PROPOSED OIL AND GAS LEASE, TIDE AND SUBMERGED LAND, SACRAMENTO AND CONTRA COSTA COUNTIES - W.O. 6110 (PARCEL A).

On December 16, 1965 (Minute Item 36, page 12,065), the Commission authorized the Executive Officer to proceed, as required by Section 6873.2 of the Public Resources Code, with the publication of a notice, that the Commission intends to consider offering a lease for the extraction of oil and gas from a tract of tide and submerged lands in portions of the San Joaquin River, False River, Taylor Slough, and Piper Slough, situated in the Counties of Contra Costa and Sacramento. The Public Resources Code provides that any affected city or county may, within 30 days after the publication of such notice, request in writing to the Commission that a hearing be held with respect thereto. The notice was published December 23 and December 30, 1965.

On January 18, 1966, the Board of Supervisors of Contra Costa County transmitted a letter to the State Lands Commission requesting that the staff consult with the U. S. Army Corps of Engineers, prior to offering said lands for lease, to determine if any conflict existed in connection with construction of the proposed Deep Water Shipping Channel Improvement Project from San Francisco Bay to the Port of Stockton, authorized by the Rivers and Harbors Act approved October 27, 1965. The Corps of Engineers has recommended to the staff that bidders comply with the conditions contained in Exhibit "A" attached.

IT IS RECOMMENDED THAT THE STATE LANDS COMMISSION AUTHORIZE THE EXECUTIVE OFFICER TO OFFER FOR OIL AND GAS LEASE, PURSUANT TO DIVISION 6 OF THE PUBLIC RESOURCES CODE, A PARCEL OF 1550 ACRES MORE OR LESS OF TIDE AND SUBMERGED LANDS IN THE SAN JOAQUIN RIVER, SACRAMENTO AND CONTRA COSTA COUNTIES.
