OTHER PERTINENT INFORMATION:

1. Applicant operates a dock under Commission Lease No. PRC 3414.1. This dock is located within one-half mile of the requested mooring buoy site. The applicant uses the dock as a petroleum transfer facility.
2. In order to abate the effects of oil spill, the applicant presently moors an 40 foot emergency response boat at a location in Crockett. The Crockett moorage site is approximately six-miles distant from the dock.
3. According to the applicant the placement of the proposed mooring buoy, at the requested site, will facilitate a more rapid response to an oil spill situation during oil handling, should such occur.
