AWARD OF ROYALTY OIL SALES CONTRACT

On January 26, 1981, the Commission authorized the sale, by competitive bidding, of the royalty oil that will be produced from the State Oil and Gas Lease E 392, Huntington Beach Field, Orange County (Minute Item No. 27). Fifty percent of the State's royalty share of crude oil produced in a one-month period (from Lease E 392) is approximately 18,500 barrels.

On March 30, 1981, a public sale was conducted and 15 bids were received and opened (See attached Exhibit "A"). Staff has reviewed the bids and has determined the successful bidder, defined in the bid proposal as the responsible bidder making the highest per barrel bonus bid over the base price and offering to execute the sales contract, to be:

USA Petrochem Corporation  
P. O. Box 1839  
1633 - 26th Street  
Santa Monica, California 90406

The Royalty Oil Sales Contract defines the base price in full, but generally can be described as the highest price posted for oil of like gravity and quality in the Huntington Beach Field. USA Petrochem submitted the highest bid of \$1.452 per barrel plus the base price and has executed the sales contract. The term of this contract is one year, but may be extended upon mutual agreement for up to two separate and consecutive six-month periods.

The disposition of the royalty oil under this sales contract will be accomplished by exchange agreement using existing oil production and transport facilities. There will not be any expansion or physical change of such facilities.
