AUTHORIZATION FOR SUBMITTAL OF
 CLAIM FOR DAMAGE TO
 UNITED STATES FOREST SERVICE
 FOR SETTLEMENT OF TIMBER TRESPASS
 SISKIYOU COUNTY

BACKGROUND:

The United States Forest Service (USFS), Klamath National Forest (KNF), on September 30, 1980 informed staff of the Commission its cone collection crew had felled seven conifer trees on State school land earlier in the month. The timber trespass occurred on the NE $\frac{1}{2}$ SE $\frac{1}{2}$ of Section 16, T40N, R10W, MDM, in Siskiyou County. The number of trees by species and total volumes (net log scale) were reported as scaled as follows:

Four ponderosa pine	18,340 board feet
Two Douglas fir	450 board feet
One white fir	170 board feet

Following receipt of log scale-ticket copies from the KNF, an error found in addition changed the total volume of ponderosa pine to 18,110 board feet. Due to a lack of forester staffing at the time, action on the appraisal of the damage incurred by the trespass was temporarily deferred. A small timber sale by the KNF of the cone trees felled on USFS lands in the general vicinity of the school land was scheduled for mid-February, 1981. The KNF entered into a sale of its felled cone trees on the basis of sealed bids. Five bids were received. The bid rate per thousand board feet (MBF) by species the USFS received on this small timber sale is the basis of the value per MBF placed on the State's timber.
