DREDGING PERMIT

In accordance with the Commission's delegation of authority to the Executive Officer for the issuance of dredging permits of 10,000 cubic yards or less, Minute Item No. 32, February 24, 1977, permission was granted on December 1, 1980 to excavate 500 cubic yards of material from State-owned sovereign lands to the party named below. Because of scheduling of work, funding and legal requirements, the applicant requested, and the Executive Officer issued, an extension to the permit for:

APPLICANT: County of Riverside, Parks Department
5192 Mission Boulevard
Rubidoux, California 92519

The modification extends the term of the permit from November 30, 1981 to July 31, 1982, specifies that all other terms, conditions and requirements of the original permit remain in full force and effect, and requires compliance with the permits, recommendations and limitations of all applicable federal, State and local agencies. The original permit allowed removal of 500 cubic yards of material from State lands in the Colorado River at Collis Mayflower County Park, to provide water exchange between the river and a previously constructed lagoon within the park. No royalty is to be charged, the consideration being the public use and benefit, with any surplus to be placed on adjacent private property at a royalty of \$0.25 per cubic yard.

EXHIBITS: A. Land Description Map.
B. Location Map.

In compliance with said delegation of authority, it has been determined that the following conditions have been met:

1. The proposed project is categorically exempt from the requirements of CEQA, pursuant to the provisions of Section 15104 of the CEQA Guidelines as a minor alteration to land with spoils disposal in an approved disposal area.

CALENDAR ITEM NO. 17 (CONT'D)

2. Issuance of the permit extension and the resultant project will have no significant adverse effect on the environmental characteristics identified pursuant to Section 6370.1 et seq., of the P.R.C.
3. The dredging amount will not exceed 10,000 cubic yards.
4. A charge per cubic yard will be assessed for surplus spoil material that is deposited on private property or otherwise lost to future State benefit.
5. Approval of the project will be contingent upon approval by all pertinent State, federal and local agencies.
