DEANNEXATION OF TIDE AND SUBMERGED LANDS
IN THE NAPA COUNTY RESOURCE CONSERVATION DISTRICT,
SOLANO COUNTY

The State Lands Commission has received a request from the Napa County Resource Conservation District to review and approve the deannexation and boundaries of certain tide and submerged lands as described in Exhibit "A" and shown on Exhibit "C".

The State's property consists of approximately 740 acres, more or less, of marsh and accreted land along San Pablo Bay acquired in 1976 by the State through Boundary Line Agreement 151. This acreage is included within the lease area of existing Lease PRC 5812.9 issued to San Pablo Bay National Wildlife Refuge. Management of the refuge has been notified of the proposed deannexation and does not object to this action.

Services rendered by the Conservation District are water control and soil erosion, but they have not provided any services to this area for many years. Their reasons given for the deannexation are to facilitate the administration of the district and to confine the areas within their jurisdiction to Napa County only. The area to be deannexed is wholly within Solano County. Pursuant to Government Code Section 56261, the Commission is to review and approve or deny the proposed deannexation and deannexation of parcels as appropriate and correct.
