AWARD OF ROYALTY OIL SALES CONTRACT

On October 28, 1982, the Commission authorized the competitive bid sale of royalty oil produced from State Oil and Gas Lease PRC 3242. Currently the State is receiving payment for the oil from the lessees (Atlantic Richfield Company and Mobil Oil Corporation). The State's share of royalty oil produced from State Lease PRC 3242 is approximately 2900 barrels per day with an average gravity of 20.2° API.

On November 1, 1982, the royalty oil from this lease was offered for sale effective July 1, 1983. Two bids were received and opened on November 16, 1982 (see Exhibit "A"). Staff has reviewed these bids for compliance with applicable rules and regulations. The highest bidder is:

Fletcher Oil and Refining Company  
P.O. Box 548  
Wilmington, California 90748

Fletcher has offered to pay in addition to the base price bonus of \$0.996 per barrel for 12 months commencing July 1, 1983. The base price is defined as the highest price posted for oil of like gravity and quality in the South Elwood Offshore Field. The transfer of oil from State Oil and Gas Lease PRC 3242 will be accomplished utilizing existing pipeline marine terminal facilities. Acceptance of the bid and issuance of a sales contract is exempt from CEQA as this activity does not constitute a project.
