OTHER PERTINENT INFORMATION:

1. These activities are exempt from CEQA because they involve existing facilities or reconstruction of existing facilities.

Authority: Cal. Adm. Code, Title 2,
Div. 3, Section 2905, Class 1 and 2.

2. The individual projects are situated on State land identified as possessing significant environmental values pursuant to P.R.C. 6370.1, and are classified in use category, Class B, which authorizes Limited Use.

3. Lake Tahoe Application: The Commission at its meeting on November 27, 1978, suspended all leasing for new construction at Lake Tahoe, except for mooring buoys in designated areas. This action was taken pending completion of an EIR which addresses the cumulative impact of continued construction of piers in Lake Tahoe. Each of the applications herein, with the exception of W 23119 and WP 5652, are for the continued use of existing piers and buoys in the lake, and therefore are not subject to the Commission's suspension of leasing activities for new construction.

W 23119 proposes the reconstruction of an existing pier damaged by winter storms. The reconstruction will be in essentially the same place.

WP 5652 proposes repair and some reconstruction of an existing pier and boathouse that have fallen into disrepair. This is a replacement permit to provide for a change in the upland ownership.

Both of the above projects have been coordinated with appropriate agencies and no adverse comments were received.

CALENDAR ITEM NO. C 0 6 (CONTD)

All permits covering structures in Lake Tahoe will include a condition subsequent that if any structure authorized is found to be in nonconformance with the Tahoe Regional Planning Agency's Shorezone ordinance and if any alterations, repairs, or removal required pursuant to said ordinance are not accomplished within the designated time period, then the permit will be automatically terminated, effective upon notice by the State and the site shall be cleared pursuant to the terms thereof.
