Does the project have the potential to degrade the quality of the environment, reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?
- 2. Does the project have the potential to achieve short term, to the disadvantage of long term, environmental goals?
- 3. Does the project have impacts which are individually limited, but cumulatively considerable?
- 4. Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?

III. DISCUSSION OF ENVIRONMENTAL EVALUATION (See Comments Attached)

- C.5./E.1. Construction activity will cause minor, temporary disturbance of water quality and lower marine organisms.
- F.1. Noise during construction will be restricted to daylight hours and will be held to reasonable standards.
- M.1. As the proposed pier will provide easier access, a minimal increase in boat traffic may result. Such increase is not anticipated to be significant.
- R.1. The project involves construction of a 200-foot long pier in a scenic cove. The question of aesthetic impact is subjective and dependent upon individual perception.
- S.1. The proposed project will provide increased recreational opportunities (swimming, diving, boating, etc.) to those associated with the upland facility.

IV. PRELIMINARY DETERMINATION

On the basis of this initial evaluation, *DETERMINATION TO BE MADE AT END OF REVIEW.

- I find the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
- I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because the mitigation measures described on an attached sheet have been added to the project. A NEGATIVE DECLARATION will be prepared.
- I find the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.
