CALENDAR ITEM NO. C 0 8 (CONTD)

BACKGROUND:

On March 30, 1978, the Commission approved a lease to Hanna-Barbera Marineland, a partnership of Kroventure-Marineland H.B., Inc., beginning December 1, 1977, for a pier and salt water intake system. On January 1, 1982, the upland and park was purchased by Marineland Amusements Corporation. The lease was assigned to Marineland Amusements Corporation, by Commission action of February 24, 1983, to be effective on the date of the transfer of the property. At that time the lease was also amended, effective December 1, 1982, increasing the rental from \$2,960 to \$4,365, and the surety bond from \$5,000 to \$10,000.

Prior to receipt from Marineland of the additional rental due under the terms of the amendment and the new surety bond for \$10,000, staff was notified by Marineland that the improvements, consisting of the dock and salt water intake system were washed away by storm damage occurring on March 1, 1983. Due to the almost total loss of the pier and intake system, the age of the pier, and its recent lack of utility to the park, Marineland has determined that reconstruction of the pier is not feasible. The intake system will be replaced by a pump intertie system which will not be located on State land. Lessee has paid rental at the prior amount of \$2,960 and the previous surety bond in the amount of \$5,000 is still in effect.

CURRENT SITUATION:

Lessee has provided staff with a Demolition and Removal Plan for removal of the subject pier which was reviewed and found to conform with the State's procedures for site clearance. Lessee has informed the staff that the pier removal is to be completed no later than June 30, 1984. Lessee is to submit an affidavit executed by a registered engineer certifying that the site has been cleared in conformance with the approved plans.

CALENDAR ITEM NO. C 0 8 (CONTD)

Subject to Commission approval, staff recommends the following:

1. Waive the difference between the prior rental of \$2,960 and the amended rental of \$4,365, in the amount of \$1,405, which was due for the year beginning December 1, 1982, plus penalty and interest, if any;
2. Accept rental for the period of December 1, 1983 through June 30, 1984, in the amount of \$1,727, using the prior rental of \$2,960 as a basis for calculation;
3. Waive the provision that Lessee provide a new surety bond in the amount of \$10,000, providing the existing bond in the amount of \$5,000 remains current until restoration of the lease premises is complete; and
4. Authorize the State's acceptance of a Lease Quitclaim Deed by Lessee, subject to conformance with site clearance procedures approved by staff.

Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Adm. Code 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a categorical exempt project. The project is exempt under Class 4(3), Removal of a Hazardous Structure, 2 Cal. Adm. Code 2905.

This activity involves lands identified as possessing significant environmental values pursuant to P.R.C. 6370, et seq.

Based upon the staff's consultation with the persons nominating the lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
