APPROVAL OF A
COMPROMISE TITLE SETTLEMENT

A title dispute exists between the State of California, acting by the State Lands Commission, and Citation Homes, a California general partnership. The dispute concerns ownership of approximately 460 acres of partially diked wetlands in the City of San Leandro, Alameda County.

Citation Homes claims title to the property as successors in interest to grantees of lands patented by the State as tidelands and as swamp and overflowed lands. The lands subject to the dispute are depicted on Exhibit "A" and described on Exhibit "B".

Portions of the subject parcel were in a natural condition tidal and navigable waterways of the State and, as such, were in sovereign fee ownership and could not be legally conveyed in fee without reserving at least a public trust easement. Other portions of the property were tidal marshes in their last natural condition and remain impressed with an easement for public trust purposes.

In settlement of this dispute, and in resolution of the concerns of the California Department of Fish and Game relative to environmental mitigation, Citation Homes has proposed:

CALENDAR ITEM NO. 30 (CONTD)

1. To convey the habitat area, consisting of approximately 160 acres to the State Lands Commission to be accepted as sovereign tide and submerged lands of the State;
2. Pay the sum of \$105,000 into the Land Bank Trust Fund administered by the State Lands Commission, to be used to acquire other lands more susceptible of use for public trust purposes.

In return for the foregoing conveyance and payment the State Lands Commission would issue a patent to Citation Homes of the Trust Termination Parcel, consisting of approximately 300 acres. The Trust Termination parcel has been reclaimed and removed from the public channels and is not now in fact tide or submerged lands.

It has been proposed that the habitat area be leased by the State Lands Commission to the Department of Fish and Game for a forty-nine year term subject to a lease provision requiring the Department to offer a sublease for the same period to the City of San Leandro.

It is contemplated that performance of the foregoing by Citation in addition to completion of a habitat enhancement plan prepared by the Department of Fish and Game for the habitat parcel will satisfy the obligations of the City of San Leandro under a 1978 agreement between the City, the Resources Agency, the United States Fish and Wildlife Service and the Department of Fish and Game. Staff has done an appraisal and evaluated the interests of the parties and has concluded that the value of the State interest being relinquished in the Trust Termination Parcel is less than or equal to the value of the land and money being transferred to the State by Citation.

OTHER PERTINENT INFORMATION:

Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Adm. Code 15061), the staff has determined that this activity is exempt from the requirements of the California Environmental Quality Act (CEQA) as a statutory exempt project. The project is exempt because it involves settlements of title and boundary problems.

Authority: P.R.C. 21080.11.
