CITY OF CARPINTERIA,  
SURVEY AND MAPPING OF TRUST GRANT LANDS

APPLICANT:

City of Carpinteria  
5775 Carpinteria Avenue  
Carpinteria, California 93013

BACKGROUND:

By Chapter 1044, Statutes 1968 as amended by Chapter 1069, Statutes 1971, a portion of the tidelands and submerged lands granted to the County of Santa Barbara by Chapter 846, Statutes of 1931, were confirmed to the City of Carpinteria.

By Chapter 1044, Statutes 1968, "The State Lands Commission shall, at the cost of the City, survey and monument the granted lands and record a description and plat thereof in the office of the County Recorder of Santa Barbara County."

There is considerable uncertainty about the true location of the line of ordinary high water mark along the shore of the Pacific Ocean, fronting the City of Carpinteria, due to past acts of man which might have affected the location of that line. Resolution of the true boundary location would be very time consuming and expensive.

The City is anxious to proceed with its plans for beach erosion control and development and needs to know the approximate location of the landward boundary of the granted tide and submerged lands so that it may administer its grant more effectively.

Staff of the Commission has proposed to the City that a 1964 mean high water line survey by the State Lands Commission be the basis for a Grant Line to be adopted by the Commission and City, until such time as the actual boundary location is resolved. The 1964 line is to be used only for administrative purposes of the City and is not intended to establish the landward limit of tide and submerged lands granted to the City.

Any tide and submerged lands lying waterward of the mean high water line of the Pacific Ocean, as that line fluctuates, and landward of the described 1964 mean high tide line are also included in the grant for administrative purposes until the true boundary between uplands and tide and submerged lands is determined by a boundary line on land exchange agreement or litigation.

The City has appropriated funds in the amount of \$25,000 to reimburse the State Lands Commission for costs incurred in implementing the survey and mapping requirements of the grant statute, and a service agreement for that purpose has been executed.

Staff of the Commission has prepared a map and description of the administrative boundaries of the granted lands, which map and description have been approved by the City of Carpinteria.
