PROPOSED MODIFICATION:

Increase the permitted dredging volume of 275,000 cubic yards an additional 195,000 cubic yards to allow for an underestimated initial amount brought on by excessive siltation from last winter's floods. All other terms and conditions of the existing permit PRC 6759 are to remain unchanged.

CONSIDERATION: To facilitate continued dredging of the designated area by allowing for the 195,000 cubic yard increase which will permit the removal of excessive siltation brought in by heavy winter storms.

BASIS FOR CONSIDERATION:

Pursuant to 2 Cal. Adm. Code 2003.
