AWARD OF ROYALTY OIL SALES CONTRACT
STATE OIL AND GAS LEASES PRC 3033 AND PRC 3413
HUNTINGTON BEACH FIELD
ORANGE COUNTY

On February 28, 1985, the Commission authorized the competitive bid sale of royalty oil produced from State Oil and Gas Leases PRC 3033 and PRC 3413, Huntington Beach Field. The royalty oil is currently being purchased by Edgington Oil Company under a contract which will expire on January 1, 1986. The State's share of royalty oil produced from these leases is approximately 670 barrels per day of 20° API gravity crude oil.

On April 4, 1985, the staff offered by competitive public bid the royalty production from these leases. The successful bidder will be the responsible bidder making the highest per barrel bonus bid over the base price. Attached as Exhibit "A" is a list of the bidders and their bonus bids in dollars per barrel above the base price. The base price is the highest price posted for like crude oil in the Huntington Beach Field on the day of delivery.

The Commission staff has reviewed the financial ability of the bidders to fulfill the obligations of the contract and their physical ability to take the oil, and has determined the highest responsible bidder which is identified on Exhibit "A". The contract, if awarded, will be for a term of 18 months, with delivery commencing on January 1, 1986. Delivery of the oil will be by exchange agreement without any change in the existing oil production and transportation facilities.
