OTHER PERTINENT INFORMATION:

1. The Department of Parks and Recreation, Cascade District, has applied to the Commission for approval to construct a concrete boat launch and rock slope protection along the Sacramento River at the Gianella Bridge. Such structures are appurtenant to a river access facility that Boating and Waterways is building. For many years the Gianella Bridge site has been a popular water access area for local tubers, swimmers and other river recreationists. The Department of Parks and Recreation has obtained all the necessary permits from other agencies and has satisfied all the application requirements for a permit. Staff, therefore, recommends that the Commission approve issuance of a public agency permit to the Department of Parks and Recreation.
2. The annual rental value of the site is estimated to be \$100.
3. This activity involves lands identified as possessing significant environmental values pursuant to P.R.C. 6370, et seq. but will not affect those significant lands. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
4. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Adm. Code 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a categorical exempt project. The project is exempt under Class 3, New Construction of a Small Facility, 14 Cal. Adm. Code 15303.
