PROPOSED SALE OF ROYALTY CRUDE OIL,
STATE OIL AND GAS LEASE, ORANGE COUNTY

At present, the State is being paid in money for the State's share of crude oil produced from six State oil and gas leases in the Huntington Beach and Belmont Offshore Fields, Orange County. These six leases were under contract to various Purchasers who have elected to return the oil to the State but continue to pay the bonuses for this oil until the contracts expire in early 1987.

Staff has been contacted by possible purchasers who have requested that the State's share of crude oil produced from these six leases, listed on Exhibit "A", be offered for competitive public bid. Staff recommends that since interest has been expressed in purchasing this crude oil, it be authorized to offer for competitive public bid the oil for which the State is presently being paid in money.

Section 6815.1 of the P.R.C. governs the sell-off of this oil and provides, in pertinent part, that when oil is taken in kind by the Commission it shall be sold only to the highest responsible bidder upon competitive public bidding and that the bidding shall be pursuant to specifications and forms adopted by the Commission prior to publication of the notice to bidders. The staff recommends that the Commission at this time authorize the sale of royalty crude oil from the leases listed on Exhibit "A" and adopt the specifications for the sell-offs which are listed on Exhibit "B" to this calendar item. Staff also recommends that the Commission adopt the forms prepared by staff for use in the sell-offs, which are the notice inviting
