CALENDAR ITEM NO. G 07 (CONT'D)

3. The January 26, 1978, action by the Commission provided for 19 Southern Pacific Pipe Lines, Inc. (SPPL) petroleum pipeline leases to be consolidated into one lease to streamline them into a systemwide approach. Rental was determined using the proration procedure contained in the Commission's general leasing regulations in 2 Cal. Adm. Code 2007. Changes, alterations or amendments to the lease can be made by mutual agreement of the parties. The proposed amendment adds only 1.444 acres to the master lease which would only cause a minimal increase in rental. Staff recommends maintaining the current annual rent until the next rent review which is due January 1, 1988.
4. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Adm. Code 15025), the staff has prepared a Proposed Negative Declaration identified as EIR ND 413, State Clearinghouse No. 87020205. Such Proposed Negative Declaration was prepared and circulated for public review pursuant to the provisions of CEQA.

Based upon the Initial Study, the Proposed Negative Declaration, and the comments received in response thereto, there is no substantial evidence that the project will have a significant effect on the environment. (14 Cal. Adm. Code 15074(b))

5. This activity involves lands identified as possessing significant environmental values pursuant to P.R.C. 6370, et seq. but will not affect those significant lands.
