CONSIDERATION OF POSITIONS OF CITY OF HUNTINGTON BEACH
AND ORANGE COUNTY ON THE BOLSA CHICA PROJECT

PARTIES: City of Huntington Beach
 Attn: Mr. Richard Barrard
 2000 Main Street
 City of Huntington Beach
 California, 92648

 County of Orange
 EMA
 Attn: Mr. Robert Fisher
 P.O. Box 4048
 Santa Ana, California 92702-4048

The State is a party to a 1973 option agreement with Signal Corporation. The option agreement provided that the State would acquire 230 acres adjacent to a 300-acre State-owned parcel at Bolsa Chica if appropriations for a navigable ocean entrance were obtained and construction of the ocean entrance were completed by specified dates. The State Lands Commission is also acting as a local sponsor in a "Work For Others Program" with the U.S. Army Corps of Engineers, Waterways Experiment Station to study physical and environmental effects of a navigable ocean entrance.

At its March 26, 1987 meeting, the Commission asked Staff to obtain a position statement from the City of Huntington Beach and Orange County on the Bolsa project. The following is a summary of the response received from the City of Huntington Beach.

CALENDAR ITEM NO. 22 (CONT'D)

While the City of Huntington Beach supports the Land Use Plan for Bolsa Chica, the City has specific concerns on the following issues:

1. The City is concerned that the entire Bolsa Chica unincorporated area be annexed by the City of Huntington Beach in order to ensure the provision of public services including water, sewer, fire, police protection and transportation. The unincorporated area of Bolsa Chica is surrounded by the City.
2. The City is committed to working toward restoration and maintenance of the wetlands at Bolsa Chica. While annexation would provide the City with oil severance tax revenues from oil operations at Bolsa Chica, the City would propose that a portion of those revenues be reinvested for an extended period of time back into a wetland restoration fund.
3. The City is concerned about potential erosion of public recreational beaches, such as Bolsa Chica State Beach, which could result from the construction of an ocean entrance. Another major concern is the financial obligation for construction of the ocean entrance and the long term maintenance of jetties, breakwaters, sediment removal from the entrance and channels and sand replenishment of the beaches.

The City of Huntington Beach states that it stands ready to work with the State Lands Commission on the Bolsa Chica project. Orange County, the City of Huntington Beach, and the upland owner, Signal Landmark, have formed a task force to coordinate regulatory issues for the Bolsa Project.
