AUTHORIZATION FOR AND APPROVAL OF BOUNDARY LINE  
AGREEMENT AND COMPROMISE SETTLEMENT, TOWN OF WOODBRIDGE,  
COUNTY OF SAN JOAQUIN UNDER THE KAPILOFF LAND BANK ACT

PARTY: Del Rio Properties, a California  
limited partnership  
J. Jeffrey Kirst, Partner  
P.O. Box 1259  
Woodbridge, California 95258

A title dispute exists between the State, in its sovereign capacity, and the record owners of a parcel of land adjacent to the Mokelumne River near the Town of Woodbridge, San Joaquin County.

The State contends that the Mokelumne River in its last natural condition crossed a portion of the parcel that the record owners now wish to develop for residential use.

The private party contends that all the property described in their deeds lies landward of the last natural position of the ordinary high water mark and is thus free from any claim the State may have, based on its sovereignty or trust capacity.

The 1.89-acre area of the State claim was a bend in the river that was partially meandered on the U.S Government Township and the Swamp and Overflowed Land surveys upon which the private title is based. The former bed is now filled and cut off from navigation and another channel connects the river along the edge of the proposed subdivision. The private party has agreed to the establishment of a boundary line, along the current channel that will allow for public access along the bank to be dedicated from the subdivision lands as required by the Subdivision Map Act. Additionally, the private party has acquired the private title of the current bed to the center

line of the river and by this agreement will grant that interest to the State. The State will then hold both the public navigational easement and the fee title to the Mokelumne in this location.

In addition, the private party has agreed to a payment of \$95,000 to be made to the Kapiloff Land Bank Fund as authorized by Public Resources Code Section 8625 in lieu of an exchange of lands pursuant to the Public Resources Code Section 6307. Staff has appraised the subject property and has evaluated the law and evidence bearing on the title dispute and is of the opinion that the \$95,000 is equal to or of greater value than the interest that the State will grant to the private party under this agreement.

The staff of the Commission recommends the approval and execution of the proposed agreement in a form similar to that now on file in the Commission's Sacramento office. The agreement will allow the private development of a tract of land not now amenable to public use and navigation while assuring public ownership and access to the current channel of the Mokelumne River. At the same time, the agreement will contribute funds to the Kapiloff Land Bank Fund to allow the Commission, as trustee of that fund, to seek out and eventually acquire lands better suited to public trust purposes than the land that will be granted to the private party under this agreement.
