CALENDAR ITEM NO. 19 (CONT'D)

OTHER PERTINENT INFORMATION:

1. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Code Regs. 15025), the staff has prepared a Proposed Negative Declaration identified as EIR ND 454, State Clearinghouse No. 89011602. Such Proposed Negative Declaration was prepared and circulated for public review pursuant to the provisions of CEQA.

Based upon the Initial Study, the Proposed Negative Declaration, and the comments received in response thereto, there is no substantial evidence that the project will have a significant effect on the environment. (14 Cal. Code Regs. 15074(b))

2. This activity involves lands identified as possessing significant environmental values pursuant to P.R.C. 6370, et seq. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
3. The existing pier is located landward of the 6,223-foot low water mark. The extension will continue waterward of the low water mark onto the State's land.
4. The extension of the existing pier will be constructed from a barge with pile driver. All construction wastes will be collected onto the barge and disposed of at the nearest dumpster/sanitary landfill site.
5. Materials will be neither stored nor placed above the low water line of the subject property. This procedure will prevent any disturbance to what may be considered Tahoe Yellow Cress (Rorippa) habitat.

CALENDAR ITEM NO. 19 (CONT'D)

6. The Department of Fish and Game Endangered Species Office has determined that this project will not have a negative impact on the Rorippa or its habitat.
7. In order to determine the other potential trust uses in the area of the proposed project, the staff contacted representatives of the following agencies: Tahoe Regional Planning Agency, Department of Fish and Game, County of Placer, and the Tahoe Conservancy. None of these agencies expressed a concern that the proposed project would have a significant effect on trust uses in the area. The agencies did not identify any trust needs which were not being met by existing facilities in the area. Identified trust uses in this area would include swimming, boating, walking along the beach, and views of the lake.
8. All permits covering structures in Lake Tahoe will include a condition subsequent that if any structure authorized is found to be in nonconformance with the Tahoe Regional Planning Agency's shorezone ordinance and if any alterations, repairs, or removal required pursuant to said ordinance are not accomplished within the designated time period, then the permit will be automatically terminated, effective upon notice by the State, and the site shall be cleared pursuant to the terms thereof.

APPROVALS OBTAINED:

Placer County, Tahoe Regional Planning Agency, Department of Fish and Games, Lahontan Regional Water Quality Control Board, and United States Army Corps of Engineers (GPO16).

FURTHER APPROVALS REQUIRED:

None.

EXHIBIT "E"

W 23946

To : Mr. Dwight Sanders, Chief
Division of Research and Planning
State Lands Commission

Sacramento, CA 95814

Date : August 10, 1989

From : Department of Fish and Game

Subject: Pier Extension/Boatlift - Antiques and Heirlooms, Limited
Hefner Property at Lake Tahoe, El Dorado County, APN 93-094-36

The California Department of Fish and Game (DFG) has received a request from the staff of the State Lands Commission (SLC) to issue a finding concerning impacts to Tahoe yellow cress (Rorippa subumbellata) from beach development on the shores of Lake Tahoe. Tahoe yellow cress is a State-listed endangered species that is only found on sandy beach habitats around the shoreline of Lake Tahoe. Pier construction and maintenance activities could seriously impact existing plant populations and habitat for this species.

The subject parcel, owned by Antiques and Heirlooms, Limited Hefner, has an existing pier. The owners seek to extend the pier into the lake by 104 feet through an addition to the existing structure. The project does not include removal and reconstruction of a pier within habitat of Tahoe yellow cress. The pier extension is beyond the shore zone where Tahoe yellow cress is known to occur. DFG has, therefore, determined that, extension of the Antiques and Heirlooms Hefner pier is not expected to impact Tahoe yellow cress or its habitat.

Other DFG concerns related to water quality and fishery resources have been adequately addressed in a Streambed Alteration Agreement, Notification II-22 89, which has already been executed.

If you have any further questions, please contact either Mr. David Showers, Associate Wildlife Biologist, Environmental Services Division, telephone (916) 322-5655 or Mr. Jerry Mensch, Environmental Services Supervisor, Region 2, telephone (916) 355-7030.
