DELEGATION OF AUTHORITY TO
EXECUTE CONTRACT FOR SECURITY FENCING AT
DEPARTMENT OF CORRECTIONS EAST LOS ANGELES PRISON SITE

Chapter 165, Statutes of 1987 transferred property proposed for the Department of Correction's East Los Angeles prison site to the jurisdiction and control of the State Lands Commission until completion of the required environmental impact report and any subsequent administrative and legal challenges have been satisfied or are expired. The Commission acts as trustee on behalf of the Department of Corrections in matters concerning leasing and site management. Receipts from leasing are to be used by the Commission to offset management costs and site improvement or remediation.

The 20+ acre site has been vacated by all but three of the original tenants. The remaining tenants have been served eviction notices and will be out by the end of 1989. As the tenants have moved out, transients have moved in. Their occupation of the property has created an nuisance and a potential liability to the State. In addition, the site has become a popular local dump site for tires, manufacturing wastes, tree and yard trimmings, garbage, car bodies and possibly toxic wastes. Numerous fires have also been reported on the site. While the remaining tenants will cooperate with the clean-up of the site and the State Police will assist within their staffing constraints to control the transients to some degree, no real control of the situation is possible without securing the site.
