OTHER PERTINENT INFORMATION:

1. At its meeting on March 5, 1981, the State Lands Commission, in Minute Item No. 10, approved the issuance of Recreational Pier Permit PRC 5956 to Tahoe Tavern Property Owners Association for a pier. As the permittee does not currently fully meet the criteria of P.R.C. 6503.5 for rent-free status, termination of the permit is recommended.
2. Applicant is a homeowners association. The subject facilities are utilized by the association's condominium owners, their tenants and guests. Because its membership currently includes 1.325 percent of non-natural persons, Applicant does not fully meet the criteria of P.R.C. 6503.5 for rent-free status. Therefore, the stated rental is the result of a proration according to this percentage. This is an application to authorize 55 existing and 35 proposed mooring buoys. All facilities, including the pier, are utilized for boat-mooring purposes.
3. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Code Regs. 15025), the staff has prepared a Proposed Negative Declaration identified as EIR ND 481, State Clearinghouse No. 89062608. Such Proposed Negative Declaration was prepared and circulated for public review pursuant to the provisions of CEQA.

CALENDAR ITEM NO. 16 (CONT'D)

Based upon the Initial Study, the Proposed Negative Declaration, and the comments received in response thereto, there is no substantial evidence that the project will have a significant effect on the environment. (14 Cal. Code Regs. 15074(b))

4. This activity involves lands identified as possessing significant environmental values pursuant to P.R.C. 6370, et seq. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.

5. Pursuant to direction of the Commission in Calendar Item 27 of the July 10, 1989 Commission meeting, staff have prepared a public trust uses determination. In the consultation process with other local, State, and federal agencies involved within the vicinity of this project, the United States Forest Service, Tahoe Basin Management Unit, commented that they are in the process of preparing an Environmental Assessment for a visitor interpretive center on parcel 94-180-15, adjacent and to the north of the Tahoe Tavern parcel. Within this proposal will be plans for the construction of a pier to extend out into the waters of Lake Tahoe.

The United States Forest Service does not object to the proposed buoy field expansion as stated in their letter to the State Lands Commission dated September 25, 1989.

CALENDAR ITEM NO. 16 (CONT'D)

6. In order to determine the other potential trust uses in the area of the proposed project, the staff contacted representatives of the following agencies: Tahoe Regional Planning Agency, California Department of Fish and Game, Placer County, and the Tahoe Conservancy. None of these agencies expressed a concern that the proposed project would have a significant effect on trust uses in the area. Other than the above comments, the agencies did not identify any trust needs which were not being met by existing facilities in the area. Identified trust uses in this area would include swimming, boating, walking along the beach, and views of the lake.

APPROVALS OBTAINED:

Tahoe Regional Planning Agency, United States Army Corps of Engineers, California Department of Fish and Game, Lahontan Regional Water Quality Control Board, and County of Placer.

FURTHER APPROVALS REQUIRED:

None.

2. DETERMINE THAT THE PROJECT, AS APPROVED, WILL NOT HAVE A SIGNIFICANT EFFECT ON THE ENVIRONMENT.
3. AUTHORIZE TERMINATION OF RECREATIONAL PIER PERMIT PRC 5956 DATED MARCH 5, 1981, EFFECTIVE OCTOBER 1, 1989.

CALENDAR ITEM NO. 16 (CONT'D)

- 3. Does the proposal have the potential to cause a physical change which would affect unique ethnic cultural values?
- 4. Will the proposal restrict existing religious or sacred uses within the potential impact area?

U. Mandatory Findings of Significance.

- 1. Does the project have the potential to degrade the quality of the environment, reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?
- 2. Does the project have the potential to achieve short term, to the disadvantage of long-term, environmental goals?
- 3. Does the project have impacts which are individually limited, but cumulatively considerable?
- 4. Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?

III. DISCUSSION OF ENVIRONMENTAL EVALUATION (See Comments Attached)

- B.1; C.5: Increased numbers of buoys could create increased boating activities which may result in increased air emissions and/or surface water pollution. Any such impacts are expected to be minimal, resulting in no significant environmental effect.
- D.5: The relocation of the buoy field occurs outside the habitat for Rorippa subumbellata (Tahoe Yellow Cress--a state-listed endangered plant species).
- E.4: The proposed activity is not located in a fish spawning habitat.
- F.1: Any noise associated with relocation of the buoy field or increased boating activity is not anticipated to be significant.
- M.1: 35 new boat mooring buoys may generate increased boating traffic; this increase should not create a substantial effect on existing vehicular movement.
- R.1: The scenic quality analysis submitted to TRPA indicates that the proposed activity will not obstruct views or create aesthetically offensive views.

IV. PRELIMINARY DETERMINATION

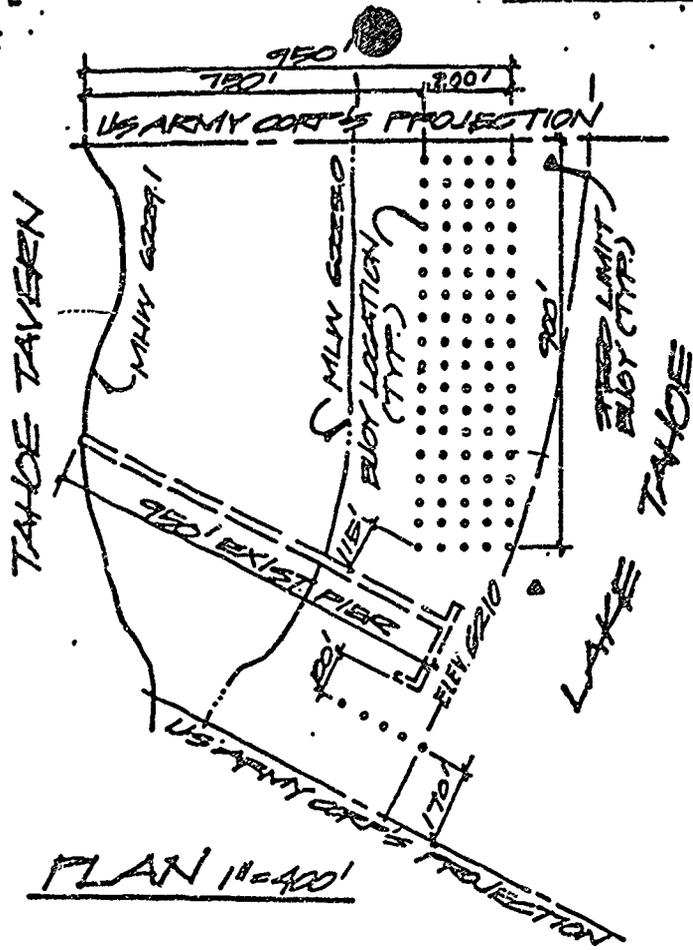

On the basis of this initial evaluation:

- I find the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
- I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because the mitigation measures described on an attached sheet have been added to the project. A NEGATIVE DECLARATION will be prepared.
- I find the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.
