**APPROVAL OF SPECIFICATIONS AND FORMS FOR
INVITING BIDS BY THE CITY OF LONG BEACH FOR
CRUDE OIL FROM CERTAIN TRACTS WITHIN THE
FAULT BLOCK IV UNIT AND FAULT BLOCK V
RANGER ZONE UNIT, WILMINGTON OIL FIELD**

BACKGROUND:

The City of Long Beach has a crude oil sales contract with Edgington Oil Company for crude oil allocated to the City from certain tracts (listed on Exhibit "A") within the Fault Block IV Unit and Fault Block V Ranger Zone Unit. Some of these tracts are tidelands tracts. This contract commenced on February 1, 1989 and is scheduled to expire on February 1, 1990. Edgington is paying the City a bonus of \$0.2775 per barrel above a Base Price defined as the highest price posted for crude oil of like gravity and quality on the day of delivery in the Wilmington, Long Beach (Signal Hill), Huntington Beach and Inglewood Oil Fields, among the postings of Chevron USA, Inc., Mobil Oil Corporation and Union Oil Company of California. The City's share of production from these tracts is approximately 280 barrels per day of 17° API gravity crude oil.

The City proposes to re-offer this oil for sale by competitive public bid under a new contract to commence on February 1, 1990 and to expire on February 1, 1991. Specifications for the sale are listed in Exhibit "B" to this calendar item.

The Long Beach City Council approved the bid package for this sale on August 15, 1989. The City now requests State Lands Commission approval of the bid package. For this sale, the

The City plans to hold a bid opening on October 25, 1989. The Commission must then approve the awarding of this contract by the City. Staff will return to the Commission at that time with its recommendations.
