OTHER PERTINENT INFORMATION:

1. This activity involves lands identified as possessing significant environmental values pursuant to P.R.C. 6370, et seq. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.

2. An environmental analysis was prepared, circulated, and adopted for this project through the regulatory program of the San Francisco Bay Conservation and Development Commission (SFBCDC) which has been certified by the Secretary for Resources as meeting the requirements of P.R.C. 21080.5 for a functional equivalent agency. The document concluded that the project, as defined, will have no significant environmental effects within the Commission's jurisdiction or special expertise.

The SFBCDC, as Lead Agency, consulted with the responsible agencies, as required by CEQA Guidelines Section 15253, and determined that the project, as approved, would not have a significant effect on the environment. The staff of the State Lands Commission has reviewed the SFBCDC's environmental analysis and believes that the conditions have been met for the Commission, as a Responsible Agency, to use the document as a substitute for a Negative Declaration as provided under CEQA Guidelines, Section 15253.
