APPROVE A NEGOTIATED SUBSURFACE (NO SURFACE USE)
STATE OIL AND GAS LEASE
(95 ACRES UNDER SAND MOUND SLOUGH),
CONTRA COSTA COUNTY

APPLICANT:

Texas Crude Exploration, Inc.
801 Travis, Suite 2100
Houston, Texas 77002

AREA, TYPE LAND, AND LOCATION:

The State land contains about 95 acres of submerged land in the bed of Sand Mound Slough located between Franks Tract State Recreation Area and Holland Tract in Contra Costa County, California (see exhibits "A", "B" and "C" for the description and approximate location of the State land). Texas Crude Exploration, Inc., a Texas corporation, has completed the application requirements for a negotiated subsurface (no surface use) State oil and gas lease on this State land.

LAND USE:

Because the State land is a waterway, Staff has determined that surface locations for oil and gas operations (drill sites) are not available. However, oil and gas resources that may underlie the State land would be protected and could be developed pursuant to the Commission's negotiated subsurface (no surface use) State oil and gas lease. Under the terms of the lease, the Commission would approve all slant drilling into the State land from county-approved drill sites and any pooling or unitization of the State land.

Except for a few submerged parcels located within Franks Tract State Recreation Area, Texas Crude has oil and gas leases on all of the private property adjacent to the State land and has a permit from the Contra Costa County Community

Development Department (Lead Agency) to drill for oil and gas on private property adjacent to the State land (see Exhibit "D" for permit requirements).

AUTHORITY:

P.R.C. 6815(a) authorizes the Commission to negotiate and enter into compensatory drainage agreements or oil and gas leases on State land if any of the following exists: wells drilled on private or public lands are draining or may drain oil and gas from the State land; the Commission determines the State land to be unsuitable for competitive bidding because of such factors as its small size or irregular configuration or its inaccessibility from surface drill sites reasonably available or obtainable; the State owns a fractional mineral interest in the land; or the Commission determines the agreement or lease to be in the best interests of the State.

Because the State land is a waterway and because Texas Crude controls by lease all of the drill sites adjacent to the State land and has county (Lead Agency) approval to drill for gas and oil near the State land, Staff has concluded that the criteria of P.R.C. 6815(a) have been met in that the State land is unsuitable for competitive bid leasing because surface locations for oil and gas operations (drill sites) are not available and that a negotiated subsurface (no surface use) oil and gas lease will provide protection from wells drilled on private property which may drain oil and gas from the State land.

NON-NEGOTIABLE LEASE PROVISIONS:

1. Primary term will be twenty (20) years and for so long thereafter as oil or gas is produced in paying quantities from the leased lands, or so long as the lessee is diligently conducting producing, drilling, deepening, repairing, redrilling or other necessary lease or well maintenance operations in the leased lands.
2. No right to use any portion of the leased lands to a depth of 500 feet for drilling locations, producing facilities or related oil and gas operations.

3. All development of the leased lands shall be accomplished from surface locations on adjacent lands.
4. All drilling into the leased lands shall be by slant drilling from surface locations on adjacent lands, shall be on a course and to an objective approved in writing by the Commission prior to the commencement of drilling, and shall be subject to the Commission's oil and gas drilling and production regulations (2 Cal. Code Regs. 2125, et seq.).
5. Compliance with all applicable laws, rules and regulations of federal, state and local governments and receipt of all necessary permits or approvals prior to slant drilling into the leased lands.

NEGOTIATED LEASE PROVISIONS:

1. Drilling term of three (3) years. However, if all or part of the leased lands is included in a Commission-approved pooled area or unit, then drilling operations on and production from the pool or unit will be deemed to be drilling operations on and production from the pooled or unitized leased lands.
2. Annual rental of \$35 per acre (\$3,325 for 95 acres).
3. Royalty of twenty percent (20%) on gas and oil.
4. Performance bond or other security in the sum of \$5,000.

PREREQUISITE CONDITIONS, FEES, AND EXPENSES:

Filing fee, processing costs, first year's rental, and duly executed State Oil and Gas Lease (Negotiated-Subsurface-Royalty) form have been received and are on file in the Commission's Long Beach office.

AB 884:

03/01/92

OTHER PERTINENT INFORMATION:

1. CEQA Guidelines Section 15378(a)(3) identifies an activity involving the issuance to a person of a lease as a "project". However, the site of the project or area in which the major environmental effects will occur is located on private property within the County of Contra Costa. The County has, therefore, functioned

as Lead Agency for the project pursuant to CEQA Guidelines Section 15366.

The Contra Costa County Community Development Department is the Lead Agency for approving applications for oil and gas well permits in the County. Development of oil and gas wells within the unincorporated area of the County is governed by Chapter 88-14 of the Ordinance Code. Before any new oil and gas activity is established, Chapter 88-14 requires the granting of a land use permit.

On September 4, 1991, the County Community Development Department approved Application for Oil and Gas Well Permit (File No. WD-6-91) to permit Texas Crude Exploration, Inc. to develop oil and gas wells on private property near the State land (see Exhibit "D" for the permit requirements). The project is a permitted activity and is governed by Section 88-14.602 of the County Ordinance Code. The project site is certified as being located in a permitted area. For the purposes of complying with the California Environmental Quality Act, the County has issued a categorical exemption (Class 3) for this project.

2. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Code Regs. 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a categorically exempt project. The project is exempt under Class 4, Minor Alterations to Land, 14 Cal. Code Regs. 15304.

Authority: P.R.C. 21084 and 14 Cal. Code Regs. 15300.

3. This activity involves lands identified as possessing significant environmental values pursuant to P.R.C. 6370 et seq. but will not affect those significant lands, or their environmentally significant values, because the surface of the State land is not included within the project site.

EXHIBITS:

- A. Land Description.
- B. Site Map.
- C. General Location.
- f). Application for Oil and Gas Well Permit (File No. WD-6-91).

IT IS RECOMMENDED THAT THE COMMISSION:

1. FIND THAT THE ACTIVITY IS EXEMPT FROM THE REQUIREMENTS OF THE CEQA PURSUANT TO 14 CAL. CODE REGS. 15061 AS A CATEGORICALLY EXEMPT PROJECT, CLASS 4, MINOR ALTERATIONS TO LAND, 14 CAL. CODE REGS. 15304.
2. FIND THAT SIGNIFICANT ENVIRONMENTAL VALUES ORIGINALLY IDENTIFIED PURSUANT TO P.R.C. 6370, ET SEQ., ARE NOT WITHIN THE PROJECT SITE AND WILL NOT BE AFFECTED BY THE PROPOSED PROJECT.
3. DETERMINE THAT THE CRITERIA OF P.R.C. 6815(a) HAVE BEEN MET IN THAT A NEGOTIATED SUBSURFACE (NO SURFACE USE) STATE OIL AND GAS LEASE IS THE BEST INSTRUMENT TO PROTECT AND DEVELOP OIL AND GAS RESOURCES THAT MAY UNDERLIE THE STATE LAND DESCRIBED IN EXHIBIT "A" AND THAT THE STATE LAND IS UNSUITABLE FOR COMPETITIVE BIDDING BECAUSE SURFACE DRILL SITES ARE NOT AVAILABLE AND BECAUSE WELLS DRILLED ON THE ADJACENT PRIVATE PROPERTY MAY DRAIN STATE OIL AND GAS RESOURCES.
4. PURSUANT TO P.R.C. 6815(a), ENTER INTO A NEGOTIATED SUBSURFACE (NO SURFACE USE) STATE OIL AND GAS LEASE WITH TEXAS CRUDE EXPLORATION, INC. THE LEASE WILL CONTAIN THE STATE LAND DESCRIBED IN EXHIBIT "A" (ABOUT 95 ACRES), A DRILLING TERM OF THREE YEARS, ANNUAL RENTAL OF \$35 PER ACRE (\$3,325 FOR 95 ACRES), ROYALTY ON GAS SUBSTANCES AND OIL FIXED AT 20 PERCENT AND PERFORMANCE BOND OR OTHER SECURITY IN THE SUM OF \$5,000.
5. AUTHORIZE THE EXECUTION OF THE DOCUMENT NECESSARY TO EFFECT THE COMMISSION'S ACTION.

EXHIBIT "A"

LAND DESCRIPTION

A parcel of land in the State-owned bed of Sandmound Slough southerly of Franks Tract and northerly of Holland Tract, Contra Costa County, California, more directly described as follows:

A strip of land 1300 feet wide lying northerly of the following described line, COMMENCING at the quarter corner common to Sections 34 and 35 in T 2 N, R 3 E, MDM; thence from said point of commencement North, 225 feet to a point in line with the outer toe of the levee on the South side of the "Holland Tract"; thence Easterly along the outer toe of said levee, 5782 feet to a point in line with the center line of the main North and South canal through the "Holland Tract"; thence N 00° 40' W along said canal center line, 14534 feet to a point on the center line of a canal running Easterly; thence continuing along the center line of the aforesaid main North and South canal 800 feet to a point on the outer toe of the levee forming the Northerly side of said "Holland Tract" and the TRUE POINT OF BEGINNING of this description; thence along said outer toe, N 53° 04' E, 657 feet; thence N 37° 20' E, 2280 feet; thence N 58° 00' E, 3375 feet; thence N 73° 25' E, 167 feet and the end of the herein described line.

EXCEPTING THEREFROM any portion lying northerly of the mean high tide line of the north bank of Sandmound Slough, and any portion lying southerly of the mean high tide line of the south bank of Sandmound Slough.

Application for Oil and Gas Well Permit

Development of Oil and Gas Wells within the unincorporated area of the County is governed by Chapter 88-14 of the Ordinance Code, unless the project is located on land that is zoned Planned Unit Development (P-1) in which case such activity is subject to the review requirements of that district.
 Before any new oil and gas activity is established, Chapter 88-14 requires the granting of a land use permit unless the subject parcel is certified by the County as lying within an area qualifying for administrative approval.

APPLICANT MUST READ AND SIGN. STANDARD CONDITIONS OF APPROVAL FOR OIL AND GAS WELL PERMITS <ol style="list-style-type: none"> The proposed uses shall be established in accord with the plans submitted with the application as approved by the Contra Costa County Zoning Administrator. Drilling operations shall conform to the regulations of the California Division of Oil and Gas designed to prevent damage to natural resources. After drilling is complete, all drilling muds, soil wastes, waste water and other waste fluids shall be removed from the site and disposed of in compliance with State and County regulations. Sumps may remain with the approval of the Zoning Administrator if they are essential to the operation of a producing well. Any proposed sumps shall be lined to prevent percolation of fluids into the sub-strata. Derricks shall be removed when wells are brought into production. If wells are abandoned, they shall be sealed in accordance with Division of Oil and Gas regulations, and the drilling or production facilities shall be removed; The site shall be restored to the conditions that existed prior to the commencement of drilling activity. No toxic substances shall be used in violation of the requirements of either the California Department of Health Services or the Division of Oil and Gas. The drilling operation shall be confined to as small an area as practical. The applicant shall comply with the requirements of the local fire protection district. <p>I hereby certify that I have the authority to make the foregoing application; I have read this application and that all information is true and correct to the best of my knowledge; that all drilling activities undertaken will be carried out in compliance with the regulations of Chapter 88-14 of the Contra Costa County Zoning Code, and that I agree to conform fully to this Oil and Gas Well Permit and all of the above conditions.</p> <p>Applicant's Signature: <u>Barry M.
