BACKGROUND

The Commission acquired this 135±-acre parcel of lieu lands
located near the town of Daggett in 1958 from the Bureau of Land
Management (BLM). The parcel is presently encumbered with a
115kv powerline right-of-way which was issued by the BLM prior to
consummation of the Commission's indemnity selection and a right-
of-way lease approved by the Commission in March 1991. The
Commission: 1) approved the issuance of a lease for a natural
gas pipeline and metering station to Kern River Gas Transmission
Company; and 2) approved the issuance, jointly to Mojave Pipeline
and Kern River, a lease for a natural gas transmission line.

On August 28, 1991, staff received an application from Meridian Oil, Inc. to purchase the above-described parcel to facilitate construction of a pipeline lateral to a generating station owned by Southern California Edison Company. This lateral would connect with the Mojave/Kern natural gas pipeline which is scheduled to be in service in early February 1992.
