In March 1989, the Commission approved assignment of an undivided 50 percent interest in the lease from Unocal to Freeport-McMoran Resources Partners, L.P. of Santa Rosa, California and another undivided 25 percent interest in the lease to Santa Fe Pacific Realty Corporation of San Francisco, California (land and mineral holding company for the Santa Fe Railroad). At that time, Freeport-McMoran became the lease operator.

In May 1990, Freeport-McMoran requested a five-year lease extension. The Commission approved this request in August 1990. The new expiration date of the lease is June 1995. In consideration of the lease extension, Freeport-McMoran agreed that if a well is not drilled on or offsetting (within 1,000 feet) the leased land by June 1, 1992, the lease will terminate automatically without further notification from the State. All other terms and conditions of the lease remained unchanged and in full force and effect.

In May 1990, the Santa Fe Pacific Realty Corporation changed its name to Catellus Development Corporation.

In December 1991, Magma Power Company of San Diego, California, (Magma Power), requested the Commission approve assignment of 100 percent of right, title, and interest under this lease from Freeport-McMoran to Magma Power. The assignment was approved in February 1992. Ownership of this lease as shown in records of State Lands Commission is currently: Unocal 25 percent, Catellus 25 percent, and Magma Power 50 percent. Magma Power is the lease operator.

In February 1992, Magma Power requested an amendment of the lease to extend the date of the drilling obligation. The Commission approved a deferment of drilling obligation at its meeting on March 2, 1992. The drilling obligation is now deferred until June 1, 1993.

On March 9, 1992, Magma Power requested that the Commission approve assignment of 100 percent of right, title, and interest under this lease from Catellus Development Corporation to Magma Power. If this assignment is approved, ownership of this lease as shown in records of the Commission will be: Unocal 25 percent and Magma Power 75 percent.
