CONSIDERATION OF SETTLEMENT PROPOSAL

PARTY:

Metropolitan Water District of Southern California  
P.O. Box 54153  
Terminal Annex  
Los Angeles, California 90054-00153

The Metropolitan Water District of Southern California (MWD) has filed condemnation proceedings against the owners of certain real property in Riverside County in an action entitled MWD of Southern California v. Scott L. Vaughn, et al., Riverside County Superior Court Case No. 226917, for the purpose of construction, operation, and maintenance of a water reservoir in Domenigoni Valley. The Commission holds a reserved one-sixteenth mineral interest in the northwest quarter of the southeast quarter of Section 36, Township 5 South, Range 2 West, San Bernardino Meridian, which mineral interest is subject to condemnation in the above entitled action. The Office of the Attorney General, after consulting with Commission staff, retained a Registered Geologist to assess the mineral potential of the parcel in question. The geologist concluded, after a comprehensive literature search, a one-day field reconnaissance, and collection and analysis of three rock samples, that the subject parcel contains no significant potential for the occurrence of any economic mineral resource.

MWD has offered the sum of one-thousand dollars as full compensation for the State's retained mineral interest in the subject parcel. In view of the consultant's conclusion with respect to the mineral potential of the parcel, the staff believes that the Attorney General should be authorized to accept that sum on the Commission's behalf.
