ACCEPT THE PARTIAL QUITCLAIM DEED FOR
STATE GEOTHERMAL RESOURCES LEASE PRC 6552,
IMPERIAL COUNTY

APPLICANT:

Magma Operating Company
Attn: Vincent Signorotti, Manager of Lands
551 West Main, Suite 1
Brawley, CA 92227

AREA, TYPE LAND AND LOCATION:

The lease currently includes approximately 2,731 acres of
State lands located along the eastern shore of the Salton
Sea, Imperial County.

BACKGROUND:

PRC 6552 was first issued by the Commission as a geothermal
prospecting permit in 1983 to Kennecott Corporation
(Kennecott). The Commission subsequently approved a two
year extension of the permit through 1988 that allowed for
drilling a geothermal test well which indicated the presence
of commercial geothermal resources. Based on test results
of this well, the Commission issued a geothermal resources
lease to Kennecott. The well was directionally drilled from
adjacent private lands into the subsurface of the leased
lands which will be retained by Magma under the partial
quitclaim. No other exploration or development work had
been conducted on the leased lands.

In 1989, the Commission approved an assignment of 100
percent of the right, title and interest under the lease
from Kennecott to Freeport-McMoRan Resources Partners
(Freeport). In March 1994, the Commission approved an
assignment of 100 percent of the right, title and interest
under the lease from Freeport to Magma Power Company
(Magma). All other terms and conditions of the lease remain
in full force and effect.

Pursuant to Paragraph 37 of the lease, the Lessee may file
with the State, at any time, a written quitclaim of all its
rights under this lease or of any portion of the leased land
