CONSENT TO THE POOLING OF 33 ACRES OF LEASED LANDS
UNDER STATE OIL AND GAS LEASE PRC 7375
SAN JOAQUIN COUNTY

LESSEE/OPERATOR:

Corbin J. Robertson
c/o Quintana Petroleum Corporation
Attn: Carol Holt
P. O. Box 77253
Houston, Texas 77253

BACKGROUND:

Negotiated subsurface (no surface use) State oil and gas lease PRC 7375 was entered into on January 17, 1990, between the State Lands Commission (SLC) and Sun Operating Limited Partnership (lessee). The lease contains approximately 33 acres of tide and submerged lands in the bed of Beaver Slough in San Joaquin County. On September 23, 1991, the Commission approved an assignment of an undivided 100 percent interest in State oil and gas lease PRC 7375 from Sun Operating Limited Partnership (Assignor) to Corbin J. Robertson, c/o Quintana Petroleum Corp (Quintana) (Assignee), effective October 1, 1991.

Paragraph 22(b) of the lease allows the Lessee, with the consent of the State and under terms and conditions approved by the State, to pool or unitize all or part of the leased lands with lands held by the Lessee or others.

Quintana has formed an operating unit that contains a total of 640 acres of State and private leased lands (described in Exhibit "A"). Quintana's unit is called the "Beaver Slough Gas Unit" and was created for the development and production of natural gas. Quintana has requested that the Commission consent to the pooling of 33 acres of leased lands under State oil and gas lease PRC 7375 by approving Quintana's Declaration of Pooling dated March 1, 1990, which created the "Beaver Slough Gas Unit" and the pooling map dated March 1, 1990, which includes the State's 33 acres representing 5.1563 percent of the pool. The Commission staff has

determined that it will be economically advantageous to the State to share in the production from the proposed unit.
