By Chapter 1415, Statutes of 1986, section 1 (Public Resources Code section 6306.1) the California Legislature authorized the California State Lands Commission (CSLC) and Board of Harbor Commissioners of the City of Los Angeles to "take all actions necessary for mitigation of expansion of the Port of Los Angeles by the enhancement,

restoration, and management of Batiquitos Lagoon in the County of San Diego." This law also provides that "if any interests in property are acquired as part of the Batiquitos Lagoon mitigation project, these interests are to be held in trust for the public as sovereign lands by the State Lands Commission." Public Resources Code section 6306.1 further specifically authorizes the Board of Harbor Commissioners to "expend harbor revenue funds to enhance, restore, and manage Batiquitos Lagoon."

On September 23, 1987, the Commission, by Minute Item No. 39, authorized the execution of a Memorandum of Agreement (MOA) between the CSLC, City of Los Angeles, California Department of Fish and Game (DFG), City of Carlsbad, United States Fish and Wildlife Service, and National Marine Fisheries Service. This MOA provides for the enhancement of Batiquitos Lagoon as a coastal estuarine marine wetland habitat through the restoration of tidal action, protection of existing habitat values and creation of other wildlife habitat, as mitigation for impacts which would be caused by proposed harbor fill and development within the Port of Los Angeles. The MOA contains provisions, which among other things, designate: 1) the City of Carlsbad "to design and construct the Lagoon Enhancement Project"; 2) the CSLC "to hold the necessary property rights for construction and maintenance of the Project"; and 3) the DFG "to assume responsibility for management, operation, maintenance and monitoring of the Project upon completion of construction."

The CSLC, over a period of many years and pursuant to several title settlement agreements and dedications, has obtained title to most of the lagoon proper. In addition, the CSLC has accepted certain public access easements adjacent to the lagoon. One of these easements, authorized by the CSLC in 1988 to be accepted, involves an area in which the public access improvements, due to local governmental requirements, were placed outside of the easement area. This agenda item seeks modification of the access easements to include the constructed area and exclude the area originally intended but not used.

CURRENT SITUATION:

In addition to the modification and exchange of easement areas described above, the DFG, California Coastal Commission, City of Carlsbad, and Aviara Land Associates support the CSLC accepting the Offer of Dedication of a 100 foot Open Space Easement which is directly adjacent to the lagoon property deeded to the Commission by Aviara. This 100 foot buffer includes portions of the north shore access trail easement previously accepted by the CSLC. Finally, the City of Carlsbad will deed to the CSLC an area that includes the current lagoon inlet under Carlsbad Blvd., thereby

connecting the lagoon proper to the Pacific Ocean. All of these interests are proposed to be included in the DFG's Batiquitos Lagoon Ecological Reserve, as described in more detail in Calendar Item #92 of this meeting.

OTHER PERTINENT INFORMATION:

1. Pursuant to the CSLC's delegation of authority and the State CEQA Guidelines (Title 14, California Code of Regulations, section 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a categorically exempt project. The project is exempt under Class 25, Transfers of Ownership of Interest In Land to Preserve Open Space. Title 14, California Code of Regulations, section 15325.
Authority: Public Resources Code section 21084 and Title 14, California Code of Regulations, section 15300.

2. This activity involves lands identified as possessing significant environmental values pursuant to Public Resources Code section 6370, et seq. Based upon the staff's consultation with the entity nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
