PROJECT TITLE: COURTLAND MARKET COMMUNITY DOCK USE PERMIT

CONTROL NUMBER: 97-UPP-0439

SUMMARY

Pursuant to Section 21081.6 of the Public Resources Code and Chapter 20.02 of the Sacramento County Code, a Mitigation Monitoring and Reporting Program has been established for the project entitled "COURTLAND MARKET COMMUNITY DOCK USE PERMIT", (Control Number: 97-UPP-0439).

The purpose of this program is to assure diligent and good faith compliance with the Mitigation Measures which have been recommended in the environmental document, and adopted as part of the project or made conditions of project approval, in order to avoid or mitigate potentially significant effects on the environment.

It shall be the responsibility of the project applicant to provide written notification to the Environmental Coordinator, in a timely manner, of the completion of each Mitigation Measure as identified on the following pages. The Department of Environmental Review and Assessment will verify, within ten (10) business days of notification, that the project is in compliance. Any non-compliance will be reported to the project applicant, and it shall be the project applicant's responsibility to rectify the situation by bringing the project into compliance and Revised-notifying the Environmental Coordinator. Any indication that the project is proceeding without good-faith compliance could result in the imposition of administrative, civil and/or criminal penalties upon the project applicant in accordance with Chapter 20.02 of the Sacramento County Code.

It shall be the responsibility of the project applicant to reimburse the County for all expenses incurred in the implementation of the Mitigation Monitoring and Reporting Program, including any necessary enforcement actions. The initial estimate of County monitoring costs for this project is \$1,950.00, which must be paid to the Department of Environmental Review and Assessment. If actual County monitoring costs are less than the initial estimate, the difference will be refunded to the applicant; and if the actual County monitoring costs exceed the initial estimate, a supplemental bill will be submitted to the applicant.

Pursuant to Section 20.02.060 of the Sacramento County Code, upon the determination of the Environmental Coordinator that compliance with the terms of the approved Mitigation Monitoring and Reporting Program has been achieved, and that there has been full payment of all fees for the project, the Environmental Coordinator shall issue and the Clerk of the Board shall record a Program Completion Certificate for the project.

In order to record the adopted Mitigation Monitoring and Reporting Program with the County

Recorder as required by Section 20.02.050(b)(2) of the Sacramento County Code, the project applicant shall provide to the Department of Environmental Review and Assessment a Legal Description for the real property that is the subject of the project.

The requirements of this adopted Program run with the real property that is the subject of the project, as described in Exhibit A. Successive owners, heirs and assigns of this real property are bound to comply with all of the requirements of the adopted Program.

Prior to any lease, sale, transfer or conveyance of any portion of the real property that is the subject of the project, the record owner(s) at the time of the application for the project, or his or her successor's in interest, shall provide a copy of the adopted Program to the prospective lessee, buyer, transferee, or one to whom the conveyance is made.

Chapter 20.02 of the Sacramento County Code permits civil remedies and criminal penalties to be imposed in the event of non-compliance with an adopted Mitigation Monitoring and Reporting Program. The civil remedies, which are found in Section 20.02.090 of the Sacramento County Code, include injunctive relief, stop work orders, revocation of any special permit granted concurrently with the approval of a Program, and the abatement of any resulting nuisance. The criminal penalties, which are found in Section 20.02.080 of the Sacramento County Code, include a fine not to exceed five hundred dollars or imprisonment in the County jail not to exceed six months, or both.

STANDARD PROVISIONS

- I. Any/all Preliminary Grading Plans, Improvement Plans and Building/Development Plans which are submitted to the Department of County Engineering and/or the Planning Department for this project, and any/all revisions to those Plans which are subsequently submitted, shall be in full compliance with the adopted Mitigation Monitoring and Reporting Program (MMRP). The project applicant shall submit one copy of all such Plans and/or revisions to the Department of Environmental Review and Assessment no later than 24 hours after the approval is obtained. If the Department of Environmental Review and Assessment determines that the approved Plans are not in full compliance with the adopted MMRP, the Plans shall be returned to the project applicant with a letter specifying the items of non-compliance, and instructing the applicant to revise the Plans, resubmit them to the approving department, and then resubmit one copy of the approved revised Plans to the Department of Environmental Review and Assessment no later than 24 hours after the approval is obtained.

Mitigation Measure:

- A. All trees 4 inches diameter at breast height (dbh) or larger within the construction areas shall be preserved and protected using the following measures:
1. Prior to the start of construction, highly visible mesh fabric fencing shall be installed at least one foot outside the driplines of all riparian vegetation.
 2. All barriers shall be maintained in an upright position at all times during project construction, and shall remain in place until completion of each seasons' work or Final Inspection by the Department of County Engineering.
 3. No grading or trenching shall be allowed within the fenced driplines of the riparian vegetation.
 4. No vehicles, construction equipment, mobile home/office, supplies, materials or facilities shall be driven, operated, parked, stockpiled, or located within the fenced areas.
 5. No signs, ropes, cables, fencing materials, or any other items shall be attached to the riparian vegetation.

Implementation and Notification (Action by Project Applicant):

1. Incorporate above measures A. 1. through A.6. and/or include them verbatim as Construction Notes on any/all Preliminary Grading Plans, Improvement Plans and Building /Development Plans which are submitted to the Department of County Engineering and/or the Planning Department for this project, and any/all revisions to those Plans which are subsequently submitted.
2. Comply fully with item #1 in the Standard Provisions section of this Mitigation Monitoring and Reporting Program.
3. Notify the Department of Environmental Review and Assessment no later than 48 hours prior to the start of each phase of construction work (including clearing and grubbing), and no later than 24 hours after its completion.

Mitigation Measure:

- C. If project construction will occur any time during the breeding season of the Swainson's hawk (March through September), a pre-construction survey of all suitable nesting trees within 1/4 mile of the project site shall be conducted. The pre-construction survey shall be performed by a qualified raptor biologist during early April through early May. No construction activities shall occur until completion of this survey.

If an active Swainson's hawk nest is found within the survey area, intensive monitoring, as directed by the California Department of Fish and Game, shall be undertaken by a qualified raptor biologist (subject to Department of Fish and Game approval) during all demolition and construction work. Exact implementation of this measure will be determined by the Department of Fish and Game based upon specific on-site conditions. If during monitoring it is determined that project construction is significantly disturbing the birds, all construction shall be halted until September 15 or fledging.

If no occupied nests are discovered, a written report documenting the findings of the survey shall be provided to the Department of Environmental Review and Assessment prior to beginning demolition or construction work at the project site.

Implementation and Notification (Action by Project Applicant):

1. If construction activities are to occur during breeding season of the Swainson's hawk, submit the required raptor nesting survey, prepared by a qualified biologist, to the Department of Environmental Review and Assessment for review and approval. If active raptor nests are identified, the California Department of Fish and Game shall be contacted to determine appropriate protective measures.
2. Incorporate any approved protective measures into any/all Preliminary Grading Plans, Improvement Plans and Building/Development Plans which are submitted to the Department of County Engineering and/or the Planning Department for this project, and any/all revisions to those Plans which are subsequently submitted.
3. Comply fully with item #1 in the Standard Provisions section of this Mitigation Monitoring and Reporting Program.

Mitigation Measure:

- E. Should any cultural resources, such as structural features, unusual amounts of bone or shell, artifacts, human remains, or architectural remains be encountered during any development activities, work shall be suspended and the Department of Environmental Review and Assessment shall be immediately notified at 440-7914. At that time, the Department of Environmental Review and Assessment will coordinate any necessary investigation of the find with appropriate specialists as needed. The project applicant shall be required to implement any mitigation deemed necessary for the protection of the cultural resources. In addition, pursuant to Section 5097.97 of the State Public Resources Code and Section 7050.5 of the State Health and Safety Code, in the event of the discovery of human remains, all work is to stop and the County Coroner shall be immediately notified. If the remains are determined to be Native American, guidelines of the Native American Heritage Commission shall be adhered to in the treatment and disposition of the remains.

Implementation and Notification (Action by Project Applicant):

1. Include the above measure verbatim as a Construction Note on any/all Preliminary Grading Plans, Improvement Plans and Building/Development Plans which are submitted to the Department of County Engineering and/or the Planning Department for this project, as well as any/all revisions to those Plans which are subsequently submitted.
2. Comply fully with item #1 in the Standard Provisions section of this Mitigation Monitoring and Reporting Program.
3. If cultural resources are encountered, notify the Department of Environmental Review and Assessment immediately.
4. If human remains are encountered, notify the County Coroner and the Department of Environmental Review and Assessment immediately.
5. If no cultural resources are encountered, the applicant shall provide the Department of Environmental Review and Assessment with a signed statement to that effect.
