P.O. Box 11164
Bakersfield, California 93389-1164

AREA, LAND TYPE, AND LOCATION:

CALENDAR ITEM NO. C25 (CONT'D)

located within Oil and Gas Lease PRC 425, except for a portion of the facilities that are located under Bolsa Chica State Beach. The facilities consist of:

1. One 12" crude oil emulsion line
2. One 3" High Pressure gas line installed within an 8" out-of-service line

4. One 8" crude oil emulsion line, currently idle, installed within a 14" out-of-service line

6. One 3" freshwater line
7. One 2 1/2" electrical power cable

ConocoPhillips Company (formerly Phillips Petroleum Company that formerly was Aminoil USA, Inc. [Aminoil]) wishes to assign to Aera Energy LLC the Agreement for Use of Easements (Agreement) for the existing pipelines and appurtenant facilities that are located under Bolsa Chica State Beach. The Agreement, which originally was between the State Lands Commission and Aminoil, was recorded in Orange County on May 15, 1979, as Document No. 21633.

In 1974, the State Department of Parks and Recreation (DPR) acquired the beach property from the Huntington Beach Company, subject to all existing easements and rights of way. In 1978, Aminoil contacted Commission staff to request a right of way to use the pipeline facilities under Bolsa Chica State Beach in conjunction with new production from State Oil and Gas Lease PRC 426. Aminoil had existing easements dated August 25, 1938 and November 28, 1949, from the private property owners for development, operations and production from State Leases PRC 392 and 425. The DPR, as owner of the property, agreed to transfer control and possession of a portion of the beach area to the State Lands Commission. The area described in the Agreement encompasses approximately one acre and is situated between the Ordinary High Water Mark of 1938 (as established pursuant to Boundary Line Agreement 84 dated November 17, 1966, between the State Lands Commission and the Huntington Pacific Corporation) and Pacific Coast Highway. Commission staff has confirmed that the pipeline facilities do not impact the area proposed for the Bolsa Chica Restoration Project.

CALENDAR ITEM NO. C25 (CONT'D)

Pursuant to Minute Item 19 of the October 26, 1987 meeting, the Commission approved the transfer of an easement from the DPR and also consented to the use of the pipeline facilities by Aminoil for production from State Lease PRC 426. The Commission's acceptance of the property from the DPR and the consent to Aminoil was authorized without monetary consideration.

For Commission staff's recordkeeping purposes, the Agreement, recorded in 1979, was given Lease No. PRC 5663.

Even though the oil and gas leases, through a series of assignments and name changes, are now in the name of Aera Energy LLC, the Agreement, or Lease No. PRC 5663, remains in the name of Phillips Petroleum Company (now ConocoPhillips).

Both ConocoPhillips and Aera Energy LLC believe it appropriate to transfer the Agreement to Aera Energy LLC at this time. Therefore, staff is recommending that the Commission authorize the assignment of the Agreement to Aera Energy LLC, the current lessee and operator of the oil and gas leases.

This assignment shall not release ConocoPhillips from any obligation to the Commission under the Agreement for Use of Easements, any conditions in the assignment agreement to the contrary notwithstanding.

Aera Energy LLC presently maintains a surety bond in the amount of \$250,000 and liability insurance in the amount of \$10,000,000 covering Oil and Gas leases PRC 392, 425 and 426. Aera will provide Commission staff with evidence that the bond and insurance certificate have been amended to include the facilities under PRC 5663.

Inspections of the 12" oil pipeline occurred on September 20, 2002 (internal) and September 10, 2003 (external). External inspections and hydrostatic testing of the gas pipelines occurred on September 10, 2003. Based on Commission staff's review of the inspections, the pipeline facilities are in compliance with the Commission's Oil and Gas Production Regulations (California Code of Regulations, Title 2, Division 3, Chapter 1, Article 3.3, 2132(h)) and are fit for service.
