

EXHIBIT B
Draft Mitigation Monitoring and Reporting Program
TCRA, Hamilton NAF
Novato, California

Task	Section	Responsible Entity	Schedule for Performance	Monitoring and Reporting Program
Dust Control Task 1: Suspend excavation and grading activity when sustained winds exceed 25 mph.	IS §3	USACE using MWH	Hourly wind monitoring during excavation and grading activities.	Results of wind monitoring will be submitted to DTSC on a weekly basis. DTSC will inspect bi-monthly.
Dust Controls Task 2: Hydrosseed or apply (non-toxic) soil stabilizers to inactive construction areas (previously graded areas inactive for ten days or more).	IS §3	USACE using MWH	Within 10 days of completing excavation and/or grading activities.	DTSC will inspect following completion of excavation activities. Summary will be completed in TCRA Implementation Report.
Dust Control Task 3: Re-vegetate disturbed areas as quickly as possible.	IS §3	USACE using MWH	Within 10 days of project completion.	DTSC will inspect following completion of project activities. Summary will be completed in TCRA Implementation Report.
