**GENERAL LEASE – RECREATIONAL USE**

**APPLICANT:**

Clifford L. Winget, III, Trustee of the Clifford L. Winget, III, Family Trust  
dated August 28, 2006

**PROPOSED LEASE:**

*AREA, LAND TYPE, AND LOCATION:*

Sovereign land in Huntington Harbour, adjacent to 16732 Coral Cay Lane,  
city of Huntington Beach, Orange County.

*AUTHORIZED USE:*

Use and maintenance of an existing boat dock, access ramp, and  
cantilevered deck extending no more than 5 feet waterward of the  
bulkhead.

*LEASE TERM:*

10 years, beginning March 20, 2017.

*CONSIDERATION:*

\$3,147 per year, with an annual Consumer Price Index adjustment.

*SPECIFIC LEASE PROVISIONS:*

1. Liability insurance in an amount no less than \$1,000,000 per occurrence.
  
2. No permanent roof or other enclosure will be constructed on the Lease Premises. Applicant agrees that any proposed use of the Lease Premises that includes a residential extension of the actual living quarters constitutes residential use and is prohibited.

**STAFF ANALYSIS AND RECOMMENDATION:**

**Authority:**

Public Resources Code sections 6005, 6216, 6301, 6501.1, and 6503.5;  
California Code of Regulations, title 2, section 2000, subdivision (b).

CALENDAR ITEM NO. **C37** (CONT'D)

**Public Trust and State's Best Interests Analysis:**

On August 11, 2009, the Commission authorized a General Lease – Recreational Use to Clifford L. Winget, III, Trustee of the Clifford L. Winget, III, Family Trust dated August 28, 2006, for a term of 10 years ([Calendar Item C18, August 11, 2009](#)). The lease will expire on March 19, 2017. The Applicant is now applying for a General Lease – Recreational Use.

Recreational boating is water-dependent and is generally consistent with the common law Public Trust Doctrine. The California Legislature has identified private recreational boating facilities as an authorized use of Public Trust lands (Public Resources Code section 6503.5). The subject facilities, consisting of a boat dock, access ramp, and cantilevered deck, are privately owned and maintained and located within the Main Channel of Huntington Harbour. The boat dock and access ramp facilitate recreational boating because they are used for the docking and mooring of recreational boats.

The Main Channel in Huntington Harbour was created in the early 1960s and the adjacent upland parcel is privately owned and developed with a residence. There is no public access at this upland property because the private upland property directly abuts the concrete bulkhead that defines the limits of the channel. The boat dock extends to the pierhead line which is 60 feet into the 400-foot-wide channel leaving the majority of the Main Channel available for navigation and public recreation. Although a cantilevered deck is not a use associated with traditional Public Trust uses, it extends no more than five feet over the Main Channel and does not substantially interfere with the public right of navigation or access. The proposed lease does not alienate the State's fee simple interest and is limited to a 10-year term. Upon termination of the lease, the lessee may be required to remove all improvements from State land. The proposed lease requires the lessee to insure the lease premises and indemnify the State for any liability and pay annual rent for the use of State land.

Sea Level Rise Analysis

The impacts of sea-level rise, including increased wave activity, storm events, and flooding, are not limited to the open coast. The existing structures subject to Lease No. PRC 5746.1 are located within the Huntington Harbour development, along an inland, navigable, tidally-influenced channel, and may be vulnerable to the impacts of sea-level rise. The lease area contains fixed features, including pilings, a

CALENDAR ITEM NO. **C37** (CONT'D)

cantilevered deck, and movable features, including a floating recreational dock and access ramp, all connected to a single-family residential property.

Huntington Harbour is built at sea level, and as a result is vulnerable to flooding and storm surge events. Huntington Harbour is adjacent to two wetlands, Bolsa Chica and the Seal Beach National Wildlife Refuge, which could act as natural buffers to storm surges and lessen flood risks. Past flood events reached almost halfway up the exposed height of the pilings, as evidenced by photographs included with the lease application. Compared to year 2000 levels, the region could see up to one foot of sea-level rise by 2030, two feet by 2050, and possibly over five feet by 2100 (NRC 2012). As stated in *Safeguarding California* (California Natural Resources Agency 2014), climate change is projected to increase the frequency and severity of natural disasters related to flooding, drought, and storms (especially when coupled with sea-level rise).

The combination of these conditions will likely result in increased wave run up, storm surge, and flooding in coastal and near coastal areas. In rivers and tidally-influenced waterways, more frequent and powerful storms can result in increased flooding conditions and damage from storm created debris. Climate change and sea-level rise will further influence coastal and riverine areas by changing erosion and sedimentation rates. Beaches, coastal landscapes, and near-coastal riverine areas will be exposed to increased wave force and run up, potentially resulting in greater beach or bank erosion than previously experienced.

This increase in sea level combined with more frequent and stronger storm events will likely expose the lease area structures to higher flood risks, comprised of greater total water levels for longer periods of time. Flooding conditions could cause structures to be damaged or dislodged, presenting hazards to public safety as well as dangers for navigation within the channel. The floating nature of the movable features will allow them to rise and fall with tides and waves, increasing their resiliency to some sea-level rise impacts. The fixed features may need to be raised or reinforced to withstand future conditions. Although the bulkhead underneath the deck is not under the Commission's jurisdiction, any sea-level rise impacts to the bulkhead could also affect the structures under the Commission's jurisdiction because it serves to stabilize the bank. Therefore, any loss or degradation of the bulkhead could result in property

CALENDAR ITEM NO. **C37** (CONT'D)

damage and public safety concerns within the lease area and the surrounding waterways.

More locally-based knowledge of sea-level rise impacts and adaptation strategies will be available to Huntington Harbour residents as a result of the ongoing efforts to update the City of Huntington Beach's Local Coastal Program and General Plan, and through the city's Coastal Resiliency Task Force. Regular maintenance, as required by the terms of the lease, will reduce the likelihood of severe structural degradation or dislodgement.

Conclusion

For all the reasons above, Commission staff believes the issuance of this lease will not substantially interfere with Public Trust needs at this location, at this time, and for the foreseeable term of the proposed lease, and is in the best interests of the State.

**OTHER PERTINENT INFORMATION:**

1. This action is consistent with Strategy 1.1 of the Commission's Strategic Plan to deliver the highest levels of public health and safety in the protection, preservation, and responsible economic use of the lands and resources under the Commission's jurisdiction.
2. Staff recommends that the Commission find that this activity is exempt from the requirements of the California Environmental Quality Act (CEQA) as a categorically exempt project. The project is exempt under Class 1, Existing Facilities; California Code of Regulations, title 2, section 2905, subdivision (a)(2).

Authority: Public Resources Code section 21084 and California Code of Regulations, title 14, section 15300 and California Code of Regulations, title 2, section 2905.

3. This activity involves lands identified as possessing significant environmental values pursuant to Public Resources Code section 6370 et seq., but such activity will not affect those significant lands. Based upon staff's consultation with the persons nominating such lands and through the CEQA review process, it is staff's opinion that the project, as proposed, is consistent with its use classification.

**EXHIBITS:**

- A. Land Description
- B. Site and Location Map

**RECOMMENDED ACTION:**

It is recommended that the Commission:

**CEQA FINDING:**

Find that the activity is exempt from the requirements of CEQA pursuant to California Code of Regulations, title 14, section 15061 as a categorically exempt project, Class 1, Existing Facilities; California Code of Regulations, title 2, section 2905, subdivision (a)(2).

**PUBLIC TRUST AND STATE'S BEST INTERESTS:**

Find that the proposed lease will not substantially interfere with the Public Trust needs and values at this location at this time; find these actions are consistent with the common law Public Trust Doctrine and are in the State's best interests.

**SIGNIFICANT LANDS INVENTORY FINDING:**

Find that this activity is consistent with the use classification designated by the Commission for the land pursuant to Public Resources Code section 6370 et seq.

**AUTHORIZATION:**

Authorize issuance of a General Lease – Recreational Use to Clifford L. Winget, III, Trustee of the Clifford L. Winget, III, Family Trust dated August 28, 2006; beginning March 20, 2017, for a term of 10 years, for the use and maintenance of an existing boat dock, access ramp, and cantilevered deck extending no more than 5 feet waterward of the bulkhead, as described in Exhibit A and shown on Exhibit B (for reference purposes only), attached and by this reference made a part hereof; annual rent in the amount of \$3,147 with an annual Consumer Price Index adjustment; and liability insurance in an amount no less than \$1,000,000 per occurrence.

**EXHIBIT A**

**PRC 5746.1**

**LAND DESCRIPTION**

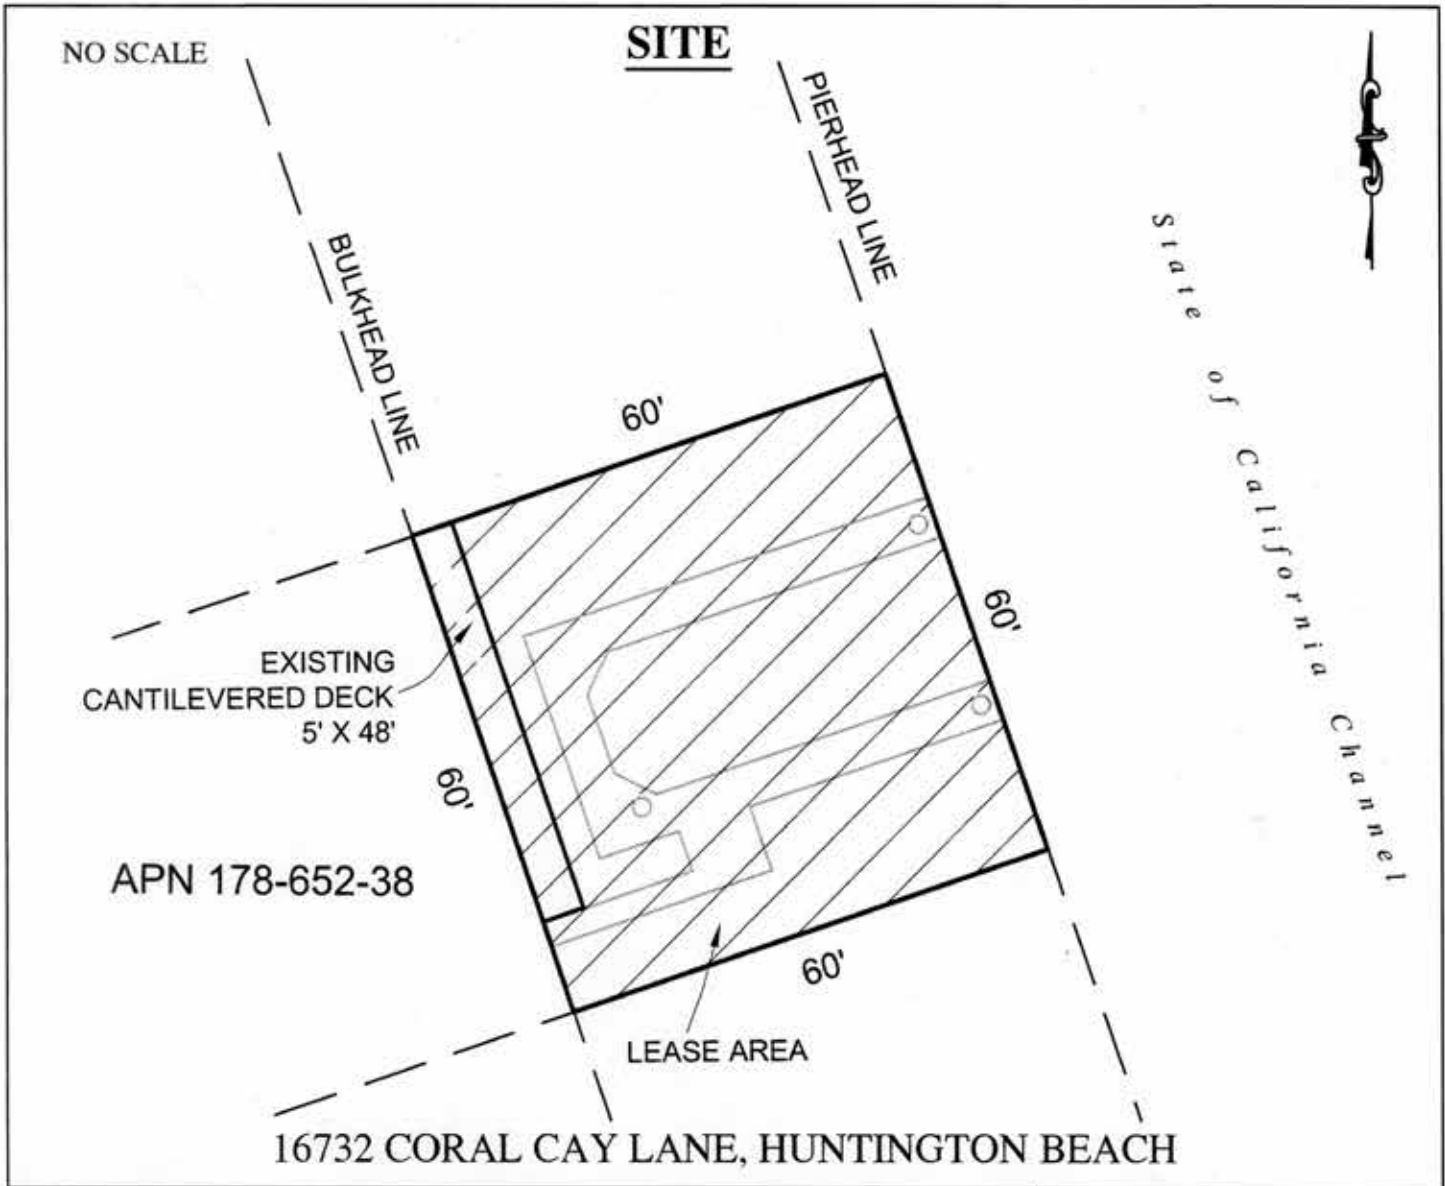

A parcel of submerged land situate in Huntington Harbour, in the City of Huntington Beach, Orange County, California, described as follows:

BEGINNING at the most easterly corner of Lot 46, as said lot is shown and so designated on that certain map of Tract No. 8040 filed November 22, 1974, in Book 350, Pages 27 through 37, Official Records of said County thence along the northeasterly prolongation of the southeasterly line of said lot 60.00 feet to the pierhead line, as said pierhead line is described in Resolution No. 5197, passed and adopted December 6, 1982 by the City Council of said City; thence northwesterly along said pierhead line 60.00 feet to the intersection of said pierhead line with the northeasterly prolongation of the northwesterly line of said lot; thence southwesterly along said northeasterly prolongation 60.00 feet to the most northerly corner of said lot; thence southeasterly along the northeasterly line of said lot to the point of beginning.
