ii بتجارية يربي INDEX Approval of Minutes of Meeting July 28, 1964 Application to lease parcel of tide and submerged lands, Tomales Bay, Marin County, Marconi Cove Marina, Incorporated Proposed mineral extraction lease, Humboldt Bay, Humboldt County; Crown Zellerbach Corporation **.**) Retention of consultants, oil and gas operations, tide and submerged lands, Wilmington Oil Field; Los Angeles County 1.5 ****

OFFICE OF ADMINISTRATIVE PROCEDURE, STATE OF CALIFORNIA

ġ.

10:15 a.m.

MR. CHAMPION: The meeting will please come to
order. In the absence of the Chairman, Lieutenant Governor
Anderson, I will be in the Chair this morning. Mr. Sieroty
sits here as Mr. Anderson's representative, however. That is
a non-voting participation, I think, under the regulations.

The first item on the agenda is confirmation of the minutes of the meeting of July 28, 1964. They have been submitted and if there is no objection, they will stand approved as submitted.

The next item is application to lease a parcel of
tide and submerged lands, Tomales Bay, Marin County, Marconi
Cove Marina, Incorporated. I believe we had an agreement in
principle last time and that is supposed to be carried out,
Is that now ready?

15 Mk. HORTIG: The agreement in principle was carried 16 out, Mr. Chairman. The Commissioners will recall that the application had been for a larger area at the same appraised 17 18 value. The agenda item before you now has reduced the area 19 to that desired by the applicant currently and with a downward 20 adjustment in the annual rental. These are the only changes 21 from the item that was before you previously and it is recommended that the reduced area lease, as outlined in this item, 22 23 be authorized for issuance.

MR. CRANSTON: I'll move approval, MR. CHAMPION: I'll second. Is there any question? MR. SIEROTY: Is this the area leased?

OFFICE OF ADMINISTRATIVE PROCEDURS, STATE OF CALIFORNIA

24

25

MR. HORTIG: On the second exhibit following page 2 2 of the calendar item, yes, Mr. Sieroty.

MR. SIEROTY: Where was the area that was previously 4 applied for?

5 MR. HORTIG: It was more extensive both upcoast and, 6 I believe, downcoast -- covering more of the water frontage of 7 the proposed upland subdivision; but the applicant corporation, 8 who are the upland owners, now propose to make this tidelands 9 development in stages rather than in one large segment at this 10 time,

MR. CHAMPION: Does Synanon still hang on over there? MR. HORTIG: Yes sir, very definitely.

13 MR. SIEROTY: We contemplate they will come back for 14 an additional lease later on?

MR. HORTIG: Yes, if their development on the uplands is successful, they will want to lease additional tideland area to what is shown on this exhibit.

18 MR, CHAMPION: Is there any further question or 19 comment? (No response) It has been moved and seconded, 20 stands approved.

Next item is the proposed mineral extraction lease, Humboldt Bay, Humboldt County; Crown Zellerbach Corporation. Again, I think we had agreement in principle.

24 MR, HORTIG: The Commission had authorized the pub-25 lication of a notice of intention to receive bids for the 28 removal and redeposit of minerals from Humboldt Bay, pursuant

OFFICE OF ADMINISTRATIVE PROCEDURE, STATE OF CALIFORNIA

88499.404 10-64 140H OBP

11

1 to competitive public bidding; and in anticipation that the 2 bids would be received and opened on December 3rd, the Com-3 mission had directed that this item be presented at this meet-4 ing for consideration.

3

9 One bid was received, equal to the minimum amount 9 specified in the notice of intention. The entire bid procedure 7 and proposed lease form have been reviewed by the Office of 8 the Attorney General and have been approved as to form; and, 9 therefore, it is recommended that the Crown Zellerbach Corpora-10 tion, the only bidder, be awarded the lease in accordance with 11 their bid submitted pursuant to the Commission's requirements.

MR. CRANSTON! I so move.

MR. CHAMPION: Second, Any question?

MR. SIEROTY: Yes, Mr. Chairman. All of the notices
have been given pursuant to statute and the time allowed for
bidding has been pursuant to statute?

MR. HORTIG: These have all been reviewed by the
Office of the Attorney General for compliance, and we have a
written opinion of the Office of the Attorney General as to
complete compliance and validity of the procedures, and authorization to the Commission to issue this lease.

22 MR. CHAMPION: There was something further about 23 this, wasn't there?

24 MR. HURTIG: There was a modification desired by the 25 Department of Fish and Game, and this will be included in the 28 lease as issued. Also, the U. S. Army Corps of Engineers have

OFFICE OF ADMINISTRATIVE UNOCEDURE, STATE OF CALIFORNIA

10441-404 1-64 130M OSP

12

1 issued a permit to the State Lands Commission to authorize any
 2 lessee to conduct this dredging.

MR. SIEROTY: Just one question: I think we have a
representative here of Crown Zellerbach Corporation. I believe
on a prior application or in some correspondence there was a
Crown Simpson Corporation mentioned. Is this the same thing?

7 MR. NELSON: Yes, sir. Crown Simpson Corporation is
8 still in the process of formation and the two owning parties
9 are carrying out the steps towards the construction of the
10 mill. I don't think this creates any problem here.

MR. SIEROTY: Do you contemplate an assignment?
 MR. NELSON: Oh, an assignment -- possibly a sale.
 MR. CHAMPION: Any question? (No response) The
 item will stand approved.

15 Item Number 3 is retention of consultants -- 0il
16 and gas operations, tide and submerged lands, Wilmington ()il
17 Field, Los Angeles County. Mr. Hortig?

18 MR. HORTIG: Mr. Chairman, for the record it would 19 probably be most complete and most expeditious if I read 20 verbatim the agenda item which is before you for consideration 21 and action.

22 On November 13, 1964, the Commission directed the 23 staff to determine the availability of consultants to assist 24 the Commission in the development and implementation of manage-25 ment programs for tide and submerged land oil and gas opera-26 tions at Long Beach.

-: 0

TRUETONA 1-84 100M DEP

Twelve interested organizations offering consultan.
 services in the exploration and development of oil and gas
 reservoirs were supplied with the material necessary deter mine the magnitude, type, and variety of services that are
 required.

The material supplied included a general scope out1 line of the work to be performed, the Notice Inviting Bids for
Contractors¹ Agreement, Long Beach Unit, the Unit Documents,
the Contractors⁴ Agreement, and copies of Chapters 29 and 138
of the Statutes of 1956 and 1964 extra sessions respectively.

11 Eight of the groups contacted have requested that 12 retention of their services under contract be considered. Not all of the interested groups were found to have within 13 their organizations the personnel required to perform all of 14 the necessary duties, which would include personnel experienced 15 in engineering, geology, legal, auditing, and management con-16 trol phases of the development of oil and gas reservoirs. 17 It appears that most of these qualified firms do not have rela-18 tionships, obligations, or interests that would conflict with 19 the performance of the services in connection with these opera-20 tions that are required by the Commission. 21

In order to perform the services required, it will be necessary for the consulting firm to review and analyze the development and economics of the production of oil and gas from the unitized area in accordance with the provisions of the documents and applicable statutes. This will also require

a thorough review of data developed through operations in the
 currently productive portion and all available geologic informa tion covering the undeveloped portion of the Wilmington Oil
 Field.

6

5 The Commissioners in their individual capacities have 6 had a conference with the representatives of the qualified pre-7 senters of proposals for consulting services who do not have 8 any existent or potential conflict of interests in the form of 9 rendering exclusive consultant services on Long Beach tidelands 10 to the State Lands Commission.

11 Therefore, it is recommended that the Commission 12 designate from this group of proposals the organization to be 13 retained as consultants under a service contract in a general 14 form attached to this agenda item to assist the Commission by 15 recommendations relating to:

16 A. Evaluation of the bids received for the contrac-17 tors' interests in the Long Beach Unit.

B. Approval of initial programs for the conduct of
development, production, and water-injection operations to
assure optimum operational development for the economic and
efficient recovery of oil and gas from the unitized area.

C. Evaluation of the scope of future services and programs necessary for the optimum dev/slopment of oil and gas from the tide and submerged lands in the City of Long Beach. It is also recommended that the Commission authorize

26 the Executive Officer to execute a standard agreement with the

OFFICE OF ADMINISTRATIVE PROCEDURE, STATE OF CALIFORNIA

thest. 404 1-64 IRON OSP

designated consultants for the services to be rendered at at
amount not to exceed \$100,000; this standard agreement to be
in the general form attached to the agenda item and to be
negotiated for final approval subject to requisite approvals
by the Director of Finance and the Department of General Services

MR. CHAMPION: By that do you mean Lands Commission
approval before approval is sought by the Director of Finance
and Department of General Services?

9 MR. HORTIG: It can so mean if this would be the 10 pleasure of the Commission.

MR. CHAMPION: As you put it verbally, it would.
12 is our time sequence? Are we getting involved with snother
13 Lands Commission meeting?

MR. HORTIG: Yes, sir; and the next Lands Commission
meeting is now scheduled for December 22nd and the loss of
that much time before a reconsideration by the Commission --unless it might be the pleasure of the Chair to accede to a
suggestion that a special meeting of the Lands Commission
could be held for such reapproval.

MR. CHAMPION: I would suggest this be in such terms that you negotiate this -- subject, really, only to informal conference by you with members of the Commission to make surg it is satisfactory; that we, in fact, give you the authority to negotiate the agreement and you can clear with us,

G

1.17

25

26

JAFFI- 404 1-84 180M ORP

MR. HORTIG: The motion will so show.

MR. CHAMPION: What is the pleasure of the Commission?

1 MR. CRANSTON: Mr. Chairman, I'd like to say first 2 that I was very impressed with the capacity and qualifications 3 of the several firms who have expressed interest in this con-4 tract. While it is necessary for us at this stage to select 6 one firm to seek to negotiate this contract with that firm, it 8 is anticipated that the burdens that are going to fall down on 7 us when we commence this operation are so great that there 8 will be other contracts probably desirable at that time, probably with more than one firm. So what I am simply saying is 9 10 that the selection of one firm at this time does not mean that 11 we will not possibly be working with others of the firms who 12 are here today or under similar circumstances in the future, 13 There will be future opportunities.

With that said, I move we adopt the resolution and
instruct the staff to proceed with the motion submitted to us
by the staff and the thoughts expressed by Hale, and insert
the name DeGolyer and McNaughton to go ahead with that work.
MR. CHAMPION: I would second that. Is there any
further question or comment on that matter?

20 MR, CRANSTON: I think Alan Sieroty might speak on 21 the matter without voting.

MR. SIEROTY: I concur in the recommendation and the motion. I had the opportunity with Mr. Cranston to discuss the proposals with the proposers and I think, as Mr. Cranston stated, we were quite impressed with the quality and confidence and the interest that was shown; and we appreciate all of the

INTAT-404 1-04 IDOM ONP

Ø

time and effort that has gone into the proposals which you have
 submitted to us and the attention you have given in trying to
 be of help to us, and I would hope, as Mr. Cranston has sug gested, that at a future time we will be able to work with
 additional consultants.

9

6 MR, CHAMPION: I would like to add the same general 7 expression. As all of you know, as we discussed it, we have 8 a monumental task ahead of us and it does not by any means end 9 with the re-evaluation of the bids and the determination of 10 the future operations of the State; and we are, in fact, about 11 to become just about the biggest oil operation in the State of 12 California, with a very limited staff.

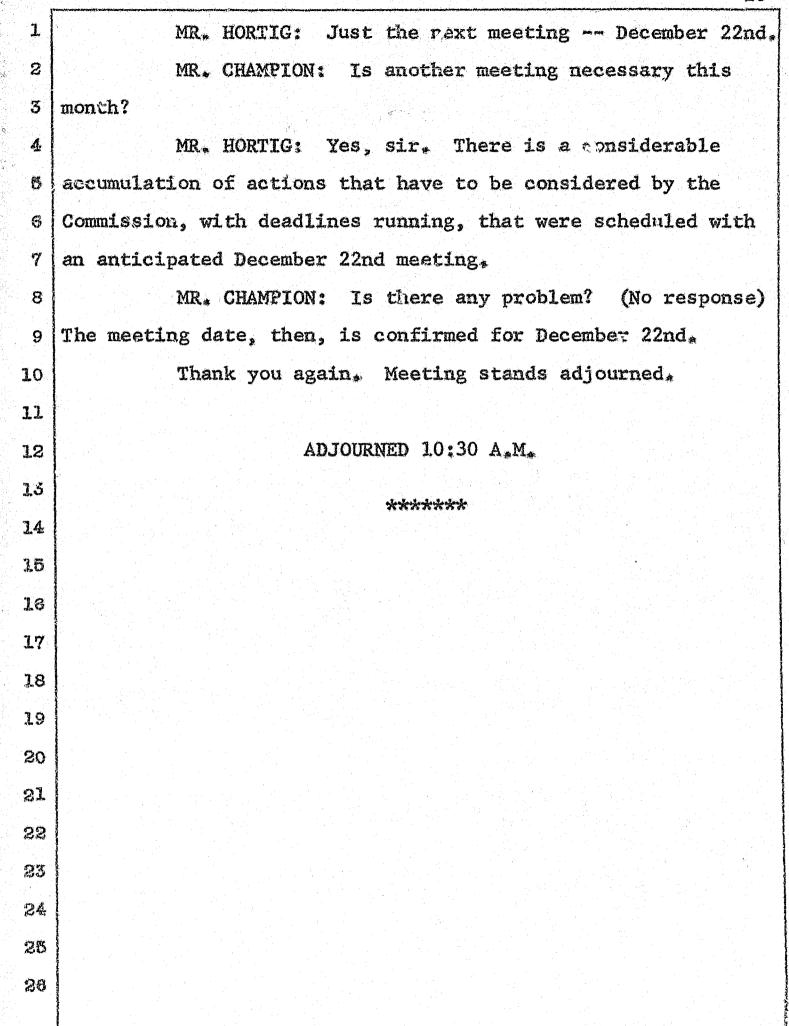

Now, that staff is going to have to be expanded and 13 there is no question about that. At the same time, however, 14 many of the things that have to be done are highly specialized 18 operations that do not require long-term employment by the 16 State but can be handled on the basis of working with people 17 of special skills in the nature of consulting both on the 18 major course of the operation and on certain special aspects 19 of it. 20

21 I want to add my thanks to those of you who have 22 taken the time to consult with us on this problem.

If there is nothing further, the motion has been moved and seconded and it is unanimously adopted, and that will be the order of the Commission,

26 Is there anything further to come before the Commission?
